COVER LETTER

Dear FreshCart Hiring Team,

I am applying for the Butcher / Meat Counter Assistant position at your Zagreb-Jarun store. I completed butcher training at the Food Trades School and have four years of experience serving customers at the meat counter at Dolac Market Hall. I would bring practical counter experience, reliable hygiene routines and a strong focus on helpful customer service.

In my current role, I weigh and price orders, operate the till, rotate cold-room stock every morning using FIFO, and clean the slicer and mincer each evening. I also prepare whole lambs and suckling pigs for spit-roasting orders. Alongside this work, I developed the shop's lamb merguez recipe and adjusted its ćevapi mix in response to customer feedback; the ćevapi received second place at the Zagreb County craft meat fair in 2023.

I have basic HACCP knowledge and have recorded temperature and weight-loss data during a dry-ageing trial. I understand the importance of reliable routines, clean equipment and well-managed stock in providing fresh food and maintaining customers' trust. FreshCart's emphasis on knowledgeable, approachable staff and honest advice at the counter is especially appealing to me.

Thank you for considering my application. I would welcome the opportunity to discuss how my meat-counter experience and practical butchery skills could contribute to the FreshCart team.

Kind regards,
Tomislav Mesarić
