# OSKAR HADDAD-LINDQVIST

Full-Stack Engineer | React, TypeScript, Node.js
oskar.hl@example.com | +46 70 555 0808 | GitHub: oskarhl-example

## PROFESSIONAL SUMMARY

Full-stack developer with professional web application experience since 2014, building frontend and backend features with React, TypeScript, Node.js and SQL databases. Experienced in NestJS, PostgreSQL, automated testing, Git-based workflows, accessibility improvements and mobile performance. Recent work includes KYC onboarding, BankID identity verification and secure document uploads, delivered in close collaboration with designers and teammates.

## TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Angular, AngularJS, Vue, React Native, HTML, CSS, SCSS, Storybook, Redux, React Query
Backend: Node.js, NestJS, Express, PHP, Laravel, REST, GraphQL, WebSockets
Databases: PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, TypeORM
Testing and delivery: Jest, Playwright, Cypress, React Testing Library, Supertest, GitHub Actions, GitLab CI, Docker
Cloud and tools: AWS (ECS, S3, Lambda, SQS, CloudWatch, RDS), Figma, Jira, Confluence, Sentry, Datadog, Unleash
Additional: WCAG 2.1 AA audit fixes, A/B testing, BankID, Linux, Varnish

## PROFESSIONAL EXPERIENCE

**Full-Stack Developer | Älvgrind Fintech AB | 2021-Present**

- Build and improve customer onboarding features in React and TypeScript, with Node.js and NestJS APIs and PostgreSQL data storage.
- Built a BankID identity verification flow, including QR-code handling, error states and retries; the onboarding funnel conversion rate increased from 61% to 74% after rollout.
- Built document upload functionality using S3 presigned URLs, ClamAV scanning in Lambda, and status tracking with SQS and PostgreSQL.
- Improved mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimization and dependency replacement.
- Fixed accessibility issues in the onboarding flow following a WCAG 2.1 AA audit.
- Contributed to migrating legacy Express services to NestJS and migrating the frontend from Create React App to Vite.
- Worked with designers in Figma and supported an A/B-tested rollout of the new onboarding flow, initially to 10% of traffic.
- Contribute to a GraphQL BFF and take part in an on-call rotation; interviewed approximately 30 candidates.
- Member of the Onboarding team, which received the 2023 internal customer impact award.

**Developer | Sjöbris Digital Agency AB | 2018-2021**

- Built websites and web applications for approximately 25 clients across retail, public sector, sports and transport.
- Developed client applications using Angular and React, and a campaign site using Vue; built backend features with Node.js, Express and PHP/Laravel.

- Co-built a React Native ferry ticketing app with one other developer; the app reached approximately 50,000 downloads. Served as project tech lead.
- Built and maintained WordPress sites, including custom themes and plugins.
- Set up GitLab CI for the agency. Worked with MySQL, MongoDB and Firebase.

**Web Developer | Nordkust Media AB | 2014-2018**

- Developed newspaper websites using PHP, jQuery and MySQL.
- Built features for an article editor using AngularJS and implemented a paywall integration.
- Worked on Varnish caching configuration and Ubuntu server administration.

**Freelance Web Developer | 2012-2014**

- Built websites for local small businesses, bands, friends and family using PHP, jQuery and WordPress.

## EDUCATION

Bachelor in Computer Science | West Coast University College, Gothenburg | 2011-2014

## ADDITIONAL EXPERIENCE

- Mentored at a coding bootcamp in Gothenburg from 2019 to 2020.
- Speaker at a local JavaScript meetup in 2022: “Migrating Express to NestJS without stopping the world”.

## LANGUAGES

Swedish: Native | English: Fluent | Arabic: Spoken at home
