NADIA BRENNAN-AZIZ

Senior Cloud Infrastructure / Platform Engineer

Manchester, UK | nadia.brennanaziz@example.com | +44 7700 900909 | github.com/nba-sre-example

PROFESSIONAL SUMMARY

Cloud infrastructure and platform engineer with 10 years in infrastructure, including the last 6 running Kubernetes platforms on AWS. Hands-on experience designing, building and operating production cloud infrastructure, maintaining Terraform-based infrastructure as code, and leading platform engineering work. Focused on reliable, observable platforms and self-service infrastructure that helps product teams ship and operate services effectively.

PROFESSIONAL EXPERIENCE

Senior Platform Engineer | Tallybrook Ltd (B2B accounting SaaS) | Manchester / remote | Apr 2022 - present

- Technical lead of a 5-person platform team operating an AWS EKS platform with 8 clusters, approximately 350 services and 3 regions.
- Built an internal developer platform with service templates, Argo CD GitOps and Crossplane-based self-service for RDS, SQS and S3; reduced the time for a new service to reach production from approximately 2 weeks to under 1 day.
- Introduced SLOs and error budgets for the 20 most critical services; reduced on-call pages per week by approximately 60%.
- Moved node provisioning to Karpenter with spot instances, reducing EC2 spend by 38%.
- Participate in the incident commander rotation and wrote the incident and post-mortem process.

Site Reliability Engineer | Brightwater Games | Leeds | Jan 2019 - Mar 2022

- Ran AWS game backend infrastructure using EC2, ECS and then EKS for titles with up to 1.2 million daily active players.
- Managed AWS infrastructure as code with Terraform across approximately 40 modules; used Atlantis for plan and apply on pull requests.
- Replaced a noisy Nagios setup with a Prometheus, Grafana, Alertmanager and Loki observability stack.
- Performed pre-launch load testing with k6 and planned capacity for launch days.

Linux Systems Engineer | Pennine Hosting | Sheffield | Jul 2016 - Dec 2018

- Managed approximately 600 Linux servers for hosting customers using Puppet configuration management.
- Automated tasks with Bash and Python and provided on-call support for customer incidents.

TECHNICAL SKILLS

Cloud and infrastructure: AWS (EKS, EC2, VPC, IAM, RDS, S3, SQS, Route 53, CloudFront), Terraform, Atlantis, Kubernetes, Helm, Kustomize, Crossplane, Karpenter, Puppet, Linux
Platform and operations: Argo CD, GitHub Actions, Prometheus, Grafana, Loki, Alertmanager, OpenTelemetry, SLOs and error budgets, incident management
Programming and testing: Go, Python, Bash, k6

EDUCATION

BSc Computer Science | University of the North Moors | 2016

CERTIFICATIONS

Certified Kubernetes Administrator (CKA) | 2021, renewed 2024
AWS Certified Solutions Architect - Professional | 2023

LANGUAGES

English (native), Urdu (conversational)
