Dear Hiring Manager,

I am applying for the Butcher / Meat Counter Assistant position at FreshCart's Zagreb-Jarun store. I bring completed butcher training and four years of customer-service experience at a meat stall, alongside practical experience in meat preparation, FIFO stock rotation, and daily hygiene routines.

At the counter, I serve customers, weigh and price orders, operate the till, and clean the slicers and mincer every evening. I rotate cold-room stock each morning using FIFO. My butchery work also includes preparing whole lambs and suckling pigs for catering, producing fresh sausages, and keeping weight-loss and temperature records during a dry-ageing trial. I have basic HACCP knowledge and am preparing for the master butcher exam, planned for spring 2027.

FreshCart's focus on trained counter staff who can give customers honest product advice makes this role especially relevant to my experience serving customers and working with meat products. I can work early and late shifts, with an early shift needed on Wednesdays.

Thank you for considering my application. I would welcome the opportunity to discuss how my meat counter and butchery experience could contribute to the FreshCart team.

Kind regards,
Tomislav Mesarić
