Samuel Achterberg-Osei

Cloud & Infrastructure Engineer

Rotterdam, Netherlands | samuel.ao@example.com | +31 6 5555 0707

PROFESSIONAL SUMMARY

Cloud and infrastructure engineer with hands-on experience designing, building and operating Azure environments. Focused on Terraform-based infrastructure, cloud networking, cloud environment design and operation, and deployment automation. Experienced in operating large Windows and Linux server estates, leading infrastructure delivery, automating deployments, and supporting AKS operations.

CORE SKILLS

Cloud: Microsoft Azure (VMs, VNets, App Service, AKS, Azure Migrate)

Infrastructure as Code: Terraform; Terratest module tests

Cloud operations: Azure DevOps YAML pipelines, Kubernetes (AKS), Docker, Helm

Networking, security and access: Hub-spoke networks, Azure Firewall, private DNS zones, private endpoints, VNet peering, TCP/IP, DNS, VPN, site-to-site VPN, firewalls, MFA, Conditional Access

Systems and automation: Windows Server, Linux (Ubuntu, RHEL), Active Directory / Entra ID, Microsoft 365 administration, PowerShell, Bash

EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics B.V., Rotterdam Mar 2025 – Present

- Part of a three-person cloud team operating an Azure estate of approximately 400 VMs and 12 AKS clusters across three subscriptions.
- Designed and built reusable Terraform modules for hub-spoke landing-zone networking, including Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across subscriptions.
- Added Terratest module tests to the pipeline and implemented a nightly infrastructure drift-detection job.
- Replaced manual deployments for 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test and deployment to App Service or AKS. Deployment frequency increased from roughly monthly to several times per week for most applications.
- Supported AKS operations, including upgrades, node pools and ingress; development teams own application manifests.

Freelance IT Administrator | Self-employed, small businesses Sep 2022 – Jan 2024

- Set up and supported Microsoft 365 and Azure AD for nine small businesses with 5–40 employees.
- Migrated two clients from on-premises file servers to SharePoint and OneDrive.
- Created a repeatable PowerShell script and checklist for security baselines, including MFA, Conditional Access, mailbox auditing and backups.

Systems Administrator | Maasbrug Gemeente IT Services, Schiedam Jan 2014 – Feb 2020

- Administered approximately 250 Windows and Linux servers supporting municipal services.
- Led the technical delivery of a lift-and-shift migration of 60 VMware servers to Azure IaaS using Azure Migrate, Azure VMs, VNets and site-to-site VPN; completed cutover over six weekends with no unplanned downtime.
- Automated user provisioning and patch reporting with PowerShell.
- Served as second-line escalation for network and Active Directory issues.

Helpdesk Technician | Maasbrug Gemeente IT Services Aug 2011 – Dec 2013

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Mar 2020 – Aug 2022 | Full-time family caregiving; maintained Azure Administrator knowledge and provided unpaid IT support to church and family.

Feb 2024 – Feb 2025 | Completed a part-time, online, three-month English-language cloud bootcamp (Dec 2024); studied Terraform and built a Proxmox homelab.

EDUCATION

MBO 4 IT Systems and Networks | Delta Vocational College, 2011

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104), 2019

HashiCorp Certified: Terraform Associate (003), 2025

LANGUAGES

Dutch (native) | English (fluent) | Twi (spoken)
