Samuel Achterberg-Osei

Cloud Infrastructure Engineer

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with experience designing, building and operating Azure infrastructure. Hands-on experience with Terraform, Azure networking, Azure DevOps pipelines, AKS operations and Windows and Linux server environments. Delivered infrastructure automation and a 60-server VMware-to-Azure migration completed over six weekends with no unplanned downtime.

CORE SKILLS

Cloud and infrastructure: Microsoft Azure, Azure IaaS, Azure landing zones, Azure VMs, Azure Migrate, App Service
Infrastructure as code and automation: Terraform, Terraform modules, PowerShell, Azure DevOps YAML pipelines, Terratest module testing, nightly drift detection
Networking and security: Hub-spoke networking, Azure Firewall, VNets, VNet peering, private DNS zones, private endpoints, site-to-site VPN, Microsoft 365 security baseline, Entra ID, MFA, conditional access
Containers and operations: AKS operations (upgrades, node pools and ingress), Docker, Helm, Windows and Linux servers, VMware
Programming and scripting: PowerShell; Python (reading code and writing small scripts); Go (Terratest tests)

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics | 2025-Present

- Build and operate Azure infrastructure, Terraform modules and Azure DevOps pipelines; operate AKS, including upgrades, node pools and ingress.
- Replace manual application deployments with automated build, test and deployment pipelines for internal applications.

Freelance IT Support | 2022-2023

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines, including MFA, conditional access, mailbox auditing and backups.

Career Break | Mar 2020-Aug 2022

- Took a family caregiving break; provided unpaid IT help to church and family and maintained Azure Administrator Associate knowledge.

Systems Administrator | Maasbrug Gemeente IT Services | 2014-2020

- Administered around 250 Windows and Linux servers and supported staff across several municipal services.
- Planned and executed the migration of 60 servers from VMware to Azure over six weekends, with no unplanned downtime.
- Automated repetitive IT work with PowerShell.

SELECTED PROJECTS

Azure Landing Zone Networking | Havenstad Logistics | 2025

- Built a Terraform hub-spoke network with Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across three subscriptions.
- Added Terratest module tests to the pipeline and a nightly drift detection job.

Release Pipelines for Internal Apps | Havenstad Logistics | 2025-2026

- Replaced manual deployments of 15 internal .NET and Node apps with Azure DevOps YAML pipelines to build, test and deploy to App Service or AKS.

- Increased deployment frequency from roughly monthly to several times per week for most apps.

VMware to Azure Migration | Maasbrug Gemeente IT Services | 2019

- Planned and executed the lift-and-shift migration of 60 servers to Azure IaaS using Azure Migrate, with cut-over over six weekends and no unplanned downtime.

Small-business Microsoft 365 Security Baseline | Freelance | 2022-2023

- Created a repeatable PowerShell script and checklist for enabling MFA, conditional access, mailbox auditing and backups for small clients.

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

- Azure Administrator Associate
- Terraform Associate certification (2025)
- Completed a part-time, online, three-month English-language cloud bootcamp (Dec 2024)
- Built a Proxmox homelab
