PROFESSIONAL SUMMARY

Full-stack developer with 12 years of professional web application experience, strongest in frontend development with React and TypeScript. Builds patient- and customer-facing features end to end, from accessible, performant interfaces to Node.js APIs and SQL databases. Experienced with NestJS, PostgreSQL, automated testing, Git-based workflows, and third-party integrations, including Swedish BankID. Has improved mobile performance and onboarding conversion, and has worked closely with designers and cross-functional teams.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Angular, AngularJS, React Native, Vue, HTML, CSS, SCSS, Storybook, Redux, React Query
Backend: Node.js, NestJS, Express, REST, GraphQL (maintains a GraphQL BFF with another developer), PHP, Laravel
Databases: PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, TypeORM
Testing and delivery: Jest, Playwright, Cypress, React Testing Library, Supertest, GitHub Actions, GitLab CI, Docker
Accessibility and design: WCAG 2.1 AA audit fixes, Figma, Storybook
Cloud and tools: AWS (ECS, S3, Lambda, SQS, CloudWatch, RDS), Linux, Nginx, Varnish, Jira, Confluence, Sentry, Datadog, Unleash
Integrations: Swedish BankID

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB | 2021–Present

- Develop onboarding features using React and TypeScript, Node.js/NestJS, and PostgreSQL within a six-person cross-functional team.
- Built a Swedish BankID identity verification flow with QR-code and same-device flows, error handling, and retries; A/B tested with 10% of traffic before rollout. Onboarding conversion increased from 61% to 74%.
- Built a secure document upload flow using S3 presigned URLs, ClamAV scanning in Lambda, and scan status updates through SQS and PostgreSQL.
- Improved mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimisation, library replacements, and other frontend performance work.
- Fixed accessibility issues in the onboarding flow following a WCAG 2.1 AA audit.
- Helped migrate the onboarding backend incrementally from Express to NestJS and migrated the frontend from Create React App to Vite.
- Collaborate with designers in Figma; contribute to automated testing, production support, and on-call rotations.
- Served as acting team lead for four months in 2024, supporting one-to-ones and sprint planning; also interviewed around 30 candidates.
- The onboarding team received the internal Customer Impact Award in 2023.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Built websites and web applications for around 25 clients across retail, transport, municipal, and sports sectors.
- Developed client applications with Angular and React, and a campaign site with Vue; built backends with Node.js/Express and PHP/Laravel.

- Served as project tech lead and built most of a two-developer React Native ferry ticket app for ticket purchase and offline display; the app reached around 50,000 downloads.
- Built and maintained WordPress sites, including custom themes and plugins.
- Set up GitLab CI for the agency; worked with MySQL, MongoDB, and Firebase.

Web Developer | Nordkust Media AB | 2014–2018

- Developed newspaper websites and an AngularJS article editor using PHP, jQuery, and MySQL.
- Implemented a paywall integration and worked on Varnish caching configuration and Ubuntu server administration.

Freelance / Student | 2012–2014

- Built websites for local clients, friends, and family using PHP, jQuery, and WordPress.

EDUCATION

Bachelor in Computer Science | West Coast University College, Gothenburg | 2011–2014

ADDITIONAL EXPERIENCE

- Mentor at a coding bootcamp in Gothenburg, 2019–2020.
- Speaker at a local JavaScript meetup in 2022: “Migrating Express to NestJS without stopping the world.”
