PROFESSIONAL SUMMARY

Full-stack developer with professional web development experience since 2014, strongest in frontend engineering. Builds customer-facing features with React, TypeScript, Node.js, NestJS and PostgreSQL. Experience includes accessibility audit fixes, measurable mobile performance improvements, third-party integrations and A/B testing in fintech. Combines hands-on delivery with mentoring and acting team lead experience.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, SCSS, Storybook, React Query; Next.js for marketing pages and server-side rendering.

Backend and databases: Node.js, NestJS, Express, REST APIs, PostgreSQL, Prisma, MySQL, Redis; maintenance of an Apollo Server GraphQL BFF.

Testing and delivery: Jest, Playwright, React Testing Library, Supertest, GitHub Actions, GitLab CI, Docker, Git-based workflows.

Cloud and operations: AWS ECS Fargate, S3, Lambda, SQS, CloudWatch, Sentry, Datadog; on-call support.

Product development: WCAG 2.1 AA audit fixes, mobile web performance, A/B testing, Unleash feature flags, Figma collaboration, Agile/Scrum.

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB | 2021 - Present

- Develop customer onboarding and KYC features in a six-person team using React, TypeScript, NestJS and PostgreSQL; collaborate closely with designers in Figma.
- Built a BankID identity verification flow through a provider SDK, including QR code and same-device flows, error handling and retries. A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Reduced mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimisation and replacement of heavyweight dependencies.
- Implemented accessibility audit fixes against WCAG 2.1 AA for the onboarding flow and migrated the frontend from Create React App to Vite in 2023.
- Built document uploads using S3 presigned URLs, ClamAV scanning in Lambda and scan-status processing through SQS and PostgreSQL.
- Helped migrate the backend incrementally from Express to NestJS, route by route; co-maintain an Apollo Server GraphQL BFF.
- Work with AWS ECS Fargate, Docker and GitHub Actions; participate in an on-call rotation of one week every six weeks.
- Served as acting team lead for four months in 2024, conducting 1:1s and sprint planning; participated in approximately 30 candidate interviews.

Developer | Sjöbris Digital Agency AB | 2018 - 2021

- Built websites and web applications for approximately 25 clients across retail, transport, municipalities and sport, using React, Angular, Node.js, Express, PHP and Laravel.
- Project tech lead for a React Native ferry ticket app with approximately 50,000 downloads. Built most of the app in a two-developer team, including offline ticket display.
- Introduced GitLab CI to replace FTP-based delivery; worked with MySQL, MongoDB and Firebase across client projects.

Web Developer | Nordkust Media AB | 2014 - 2018

- Developed newspaper websites with PHP, jQuery and MySQL, and an article editor using AngularJS.
- Implemented a paywall integration and worked on Varnish caching configuration and Ubuntu server administration.

Freelance Web Developer / Student | 2012 - 2014

- Built websites for local businesses, bands, friends and family using PHP, jQuery and WordPress.

EDUCATION

Bachelor in Computer Science | West Coast University College (Högskola) | 2011 - 2014
Graduated 2014.

PROFESSIONAL DEVELOPMENT AND COMMUNITY

- Advanced React Patterns course, 2022.
- Coding bootcamp mentor, 2019 - 2020.
- Local JavaScript meetup speaker, 2022: "Migrating Express to NestJS without stopping the world".
