Oskar
Full-Stack Engineer | React, TypeScript, Node.js

Professional Summary

Full-stack developer with professional web development experience since 2014, strongest in frontend development. Builds onboarding features with React, TypeScript, NestJS and PostgreSQL, with experience in AWS integrations, A/B testing and technical leadership. Delivered an identity verification flow associated with an increase in onboarding conversion from 61% to 74%.

Technical Skills

- Frontend: React, TypeScript, React Native, Angular.
- Backend and databases: Node.js, NestJS, Express, PostgreSQL, Prisma, TypeORM.
- AWS: ECS, S3, Lambda, SQS; application development and integrations.
- Integrations: Swedish BankID provider SDK, S3 presigned URLs, Firebase Cloud Messaging.
- GraphQL: maintenance of one backend-for-frontend (BFF) using Apollo Server.

Professional Experience

Fullstack Developer | Älvgrind Fintech AB | 2021-Present

- Develop onboarding features using React, TypeScript, NestJS, PostgreSQL and AWS.
- Built a Swedish BankID identity verification step supporting QR-code and same-device flows through a provider SDK. The flow was A/B tested on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Implemented document uploads of up to 20 MB using S3 presigned URLs, ClamAV virus scanning in Lambda, and scan-status processing through SQS into PostgreSQL.
- Worked on the incremental migration of the onboarding backend from Express to NestJS, route by route behind the same API gateway, using TypeORM and later Prisma. Presented the migration at a meetup in 2022.
- Served as acting team lead for four months in 2024 during the team lead's parental leave, conducting one-to-ones and sprint planning.

Developer | Sjöbris Digital Agency AB | 2018-2021

- Developed client web and mobile projects using Angular, React, React Native, Node.js, Laravel and WordPress.
- Led the technical delivery of a React Native ferry ticket app in a two-developer team, building most of the app while the other developer handled the payment backend. The app supports ticket purchases and offline ticket display and reached approximately 50,000 downloads.
- Used TypeScript and Firebase Cloud Messaging on the ferry app project, delivered in 2019-2020.

Newspaper website development | Nordkust Media | 2014-2018

- Developed newspaper websites over four years before joining Sjöbris Digital.
