FreshCart Supermarkets

Application: Butcher / Meat Counter Assistant – Zagreb-Jarun store

Dear Hiring Manager,

I am applying for the Butcher / Meat Counter Assistant position at FreshCart's Zagreb-Jarun store. With completed butcher training, practical meat-counter experience and a HACCP basic food hygiene certificate renewed in 2024, I offer a strong match for your requirements in fresh meat preparation, customer advice and food hygiene.

At Mesnica Kod Ante, I break down 2–3 beef forequarters and 10–12 pork sides each week, boning, trimming and portioning meat for the service counter. I record cold-room and display-counter temperatures twice daily and have trained two apprentices in safe knife handling and cleaning routines. My earlier role at the Dolac meat hall also involved weighing and pricing orders, handling payments, and cleaning and sanitising equipment and the counter.

FreshCart's "Ask the counter" promise closely matches my experience serving about 120 customers on Saturdays and advising them on cuts and cooking times. This combination of practical butchery skills, busy-counter service and consistent temperature checks would allow me to contribute to the knowledgeable service and care for hygiene you expect from your counter team.

I would welcome an interview to discuss how my experience could contribute to your meat counter. Thank you for considering my application.

Yours faithfully,
Tomislav Mesarić
