Application: Butcher / Meat Counter Assistant – Zagreb-Jarun store

Dear Hiring Team,

I am applying for the Butcher / Meat Counter Assistant position at your Zagreb-Jarun store. I completed my butcher training at the Food Trades School in 2015 and currently work at Mesnica Kod Ante. My experience combines hands-on meat preparation with four years of earlier customer service at the Dolac meat counter, where I weighed and priced orders, operated the till and cleaned equipment each evening.

At Kod Ante, I rotate cold-room stock every morning using FIFO and make about 40 kg of fresh sausage a week in the busy season. I have also prepared whole lambs and suckling pigs for weddings and family parties, handling ordering, butchering, seasoning and delivery. I have basic HACCP knowledge, and during a dry-ageing trial I kept temperature and weight-loss records. At Dolac, I wrote a closing and cleaning checklist that remains in use. These practical habits are directly relevant to your stock-rotation, hygiene and record-keeping requirements.

FreshCart's "Ask the counter" promise calls for staff who know their products. My experience developing the shop's lamb merguez recipe and adjusting its ćevapi mix after customer feedback would give me a practical foundation for those customer conversations. Your support for master craftsman exam preparation is also relevant: I am preparing for the master butcher exam planned for spring 2027.

I am seeking a new role because Kod Ante's owner is retiring and closing the shop at the end of 2026. I can work early and late shifts, with an early shift required on Wednesdays. I would welcome a meeting to discuss how my preparation skills, counter experience and attention to hygiene could contribute to your team.

Kind regards,
Tomislav Mesarić
