RAFAEL

Backend Engineering | Hands-on Senior Backend Engineer / Staff Individual Contributor

PROFESSIONAL SUMMARY

Backend engineering professional targeting hands-on senior or staff individual-contributor work. Recent development has included Python internal tools and cost-dashboard scripts. GCP is the candidate's primary cloud platform; background also includes Go and limited historical AWS exposure.

TECHNICAL SKILLS

Languages: Python (recently refreshed); Go (rusty)
Cloud: GCP; AWS: EC2, S3 (limited exposure)
Recent Development: Python internal tools; cost-dashboard scripts

PROFESSIONAL EXPERIENCE

Streamhaus

- Developed internal tools and cost-dashboard scripts.
- Employment ended in August 2026 following an organizational reorganization and merger.

Nordfels

- Had limited AWS exposure, including EC2 and S3.

ADDITIONAL INFORMATION

Seeking hands-on individual-contributor work rather than people management.
