Professional Summary

Full-stack developer with professional experience building web applications since 2014. Specialised in React and TypeScript, with hands-on experience developing Node.js and NestJS APIs backed by PostgreSQL. Has delivered accessible, performance-focused customer experiences, automated tests, and third-party integrations, including Swedish BankID. Fluent in English and Swedish.

Technical Skills

- **Frontend:** React, TypeScript, JavaScript, Next.js, Angular, AngularJS, Vue, React Native, HTML, CSS, SCSS, Storybook, Redux, React Query
- **Backend:** Node.js, NestJS, Express, REST, GraphQL, PHP, Laravel
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, TypeORM
- **Testing:** Jest, Playwright, Cypress, React Testing Library, Supertest
- **Cloud and delivery:** AWS (ECS, S3, Lambda, SQS, CloudWatch, RDS), Docker, GitHub Actions, GitLab CI, Linux
- **Other:** Accessibility (WCAG 2.1 AA), BankID, Figma, Jira, Confluence, Sentry, Datadog, Unleash, Agile/Scrum

Professional Experience

Full-Stack Developer | Älvgrind Fintech AB, Gothenburg *2021–Present*

- Build and improve onboarding experiences using React and TypeScript, with NestJS services and PostgreSQL.
- Developed a Swedish BankID identity-verification flow, including QR code and same-device journeys, error handling and retries. A/B tested with 10% of traffic before rollout; onboarding conversion increased from 61% to 74%.
- Built a secure document-upload flow using S3 presigned URLs, ClamAV scanning in Lambda, and SQS and PostgreSQL to track scan status.
- Contributed to an incremental migration of the onboarding backend from Express to NestJS, route by route behind the same API gateway.
- Improved mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimisation, removing Moment.js and replacing a large charting library.
- Delivered accessibility audit fixes for the onboarding flow against WCAG 2.1 AA; migrated the frontend from Create React App to Vite in 2023.
- Work closely with designers in Figma; contribute to on-call support and candidate interviews.
- Team received the internal Customer Impact Award in 2023.

Technologies: TypeScript, React, Next.js, Node.js, NestJS, Express, PostgreSQL, Prisma, AWS, Docker, GitHub Actions, Jest, Playwright, Storybook, Sentry, Datadog, Unleash

Developer | Sjöbris Digital Agency AB, Gothenburg *2018–2021*

- Built websites and web applications for approximately 25 clients across retail, transport, local government and sports.
- Developed client applications using Angular, React and Vue, with Node.js/Express and PHP/Laravel backend work.
- Built a React Native ferry-ticket app with one other developer; acted as project tech lead. The app supported ticket purchase and offline viewing and reached approximately 50,000 downloads.
- Created and maintained WordPress sites, including custom themes and plugins; introduced GitLab CI for the agency.

Technologies: JavaScript, TypeScript, Angular, React, React Native, Vue, Node.js, Express, PHP, Laravel, WordPress, MySQL, MongoDB, Firebase, GitLab CI

Web Developer | Nordkust Media AB, Gothenburg *2014–2018*

- Developed newspaper websites and an article editor using PHP, jQuery and AngularJS.
- Implemented paywall integration and configured Varnish caching; carried out some Ubuntu server administration.

Technologies: PHP, jQuery, AngularJS, MySQL, Varnish, Linux

Freelance / Student *2012–2014*

- Built websites for friends, family, a local bakery and two bands using PHP, jQuery and WordPress.

Education

Bachelor in Computer Science | West Coast University College (Högskola), Gothenburg | 2011–2014
Graduated 2014

Natural Science Programme | Gymnasium | 2008–2011

Additional Experience and Projects

- **Coding bootcamp mentor**, Gothenburg, 2019–2020 (evenings).
- **Speaker**, local JavaScript meetup, 2022: "Migrating Express to NestJS without stopping the world."
- **Home Assistant integrations:** Created two small custom integrations for home automation, published on GitHub with approximately 40 stars combined; used basic Python and YAML.

Languages

- Swedish: Native
- English: Fluent; work language at Älvgrind
- Arabic: Spoken at home; limited writing
- German: School-level
