OSKAR

TypeScript / React

PROFESSIONAL SUMMARY

Full-stack engineer with 12 years of professional experience building web and mobile applications. Strongest in React and TypeScript, with professional experience developing Node.js services using NestJS and Express and working with PostgreSQL and AWS. Delivered onboarding and identity-verification features, increased onboarding conversion from 61% to 74% through A/B testing, and built a React Native ticketing app with approximately 50,000 downloads. Served as acting team lead for four months in 2024.

TECHNICAL SKILLS

Frontend: React, TypeScript, Angular, React Native

Backend: Node.js, NestJS, Express

Databases: PostgreSQL, TypeORM, Prisma

Cloud and services: AWS ECS, S3, Lambda, SQS, Firebase Cloud Messaging

Additional Technologies: Laravel, WordPress, GraphQL (Apollo Server; maintenance of a BFF), Terraform (small edits), Python (basic), YAML

LANGUAGES

English: Proficiency level not specified

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB | 2021–Present

- Build onboarding features for a fintech product using React and TypeScript, with Node.js/NestJS services, PostgreSQL, and AWS.
- A/B tested the identity step on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Delivered Swedish BankID identity verification and secure document-upload features; see Selected Projects for details.
- Contributed to the incremental migration of the onboarding backend from Express to NestJS; gave a meetup talk about the migration in 2022.
- Acted as team lead for four months in 2024 during the team lead's parental leave, including one-to-ones and sprint planning.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Delivered client web and mobile projects using Angular, React, React Native, Laravel and WordPress.
- Served as project tech lead in a two-developer React Native ferry-ticket app team and built most of the app; the other developer handled the payment backend.

Developer | Nordkust Media | 2014–2018

SELECTED PROJECTS

Ferry Ticket Mobile App | Sjöbris Digital for a ferry operator | 2019–2020

- Built most of a React Native app for buying and displaying ferry tickets offline; the app has approximately 50,000 downloads.
- Technologies: React Native, TypeScript, Node.js, Firebase Cloud Messaging.

BankID Identity Verification Flow | Älvgrind Fintech | 2022

- Delivered a new onboarding identity step supporting Swedish BankID QR-code and same-device flows through a provider SDK.
- Implemented a Swedish BankID identity-verification flow with QR-code and same-device authentication journeys through a provider SDK.
- A/B tested on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Technologies: React, TypeScript, NestJS, PostgreSQL, AWS ECS.

Secure Document Upload | Älvgrind Fintech | 2023

- Built a secure document-upload flow for files up to 20 MB using S3 presigned URLs, ClamAV scanning in Lambda, SQS status updates, and PostgreSQL.
- Technologies: AWS S3, Lambda, SQS, NestJS, PostgreSQL.

Express to NestJS Migration | Älvgrind Fintech | 2021–2022

- Contributed to an incremental onboarding-backend migration from Express to NestJS, keeping routes behind the same API gateway during the migration.
- Gave a meetup talk about the migration in 2022.
- Technologies: Node.js, Express, NestJS, TypeORM, Prisma.

PERSONAL PROJECTS

Home Assistant Integrations | 2022–Present

- Created two small custom home-automation integrations, published on GitHub with approximately 40 stars combined.
- Technologies: Python (basic), YAML.
