Samuel Achterberg-Osei

Cloud Infrastructure / Platform Engineer

Contact Email: applicant.inbox@example.com Phone: +44 7700 900123

Professional Summary

Cloud infrastructure engineer with experience designing, building and operating Azure environments. Hands-on experience with Terraform, Azure DevOps pipelines, AKS operations, cloud networking and PowerShell automation. Led a 60-server VMware-to-Azure migration completed over six weekends with no unplanned downtime. Experienced in making internal application deployments more frequent through automated build, test and deployment pipelines.

Technical Skills

Cloud and infrastructure: Microsoft Azure, Azure IaaS, Azure Migrate, Azure landing zones, Azure VMs

Infrastructure as code and automation: Terraform, Terraform modules, PowerShell; Python (small scripts); Go (Terratest tests)

CI/CD and containers: Azure DevOps YAML Pipelines, Docker, Helm, AKS, App Service

Networking and security: Hub-spoke networking, VNets, VNet peering, Azure Firewall, private DNS zones, private endpoints, site-to-site VPN, Microsoft 365 security baseline, Entra ID

Systems: Windows and Linux servers, VMware, Proxmox homelab

Professional Experience

Cloud Engineer (Contract) | Havenstad Logistics | 2025–Present

- Build and maintain Azure landing-zone infrastructure, Terraform modules, Azure DevOps pipelines and AKS environments.
- Designed a hub-spoke network using Terraform, including Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across three subscriptions.
- Added Terratest module tests to the pipeline and implemented a nightly infrastructure drift-detection job.
- Replaced manual deployment processes for 15 internal .NET and Node applications with Azure DevOps YAML pipelines covering build, test and deployment to App Service or AKS.
- Increased deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS upgrades, node pools and ingress; application manifests are owned by development teams.

Freelance IT Support | 2022–2023

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines.
- Supported clients with enabling MFA, Conditional Access, mailbox auditing and backups.

Systems Administrator | Maasbrug Gemeente IT Services | 2014–2020

- Administered Windows and Linux servers and supported staff across municipal services.
- Led the planning and execution of a lift-and-shift migration of 60 VMware servers to Azure IaaS using Azure Migrate.
- Completed the cutover over six weekends with no unplanned downtime.
- Used Azure VMs, VNets, site-to-site VPN and PowerShell in the migration.

- Supported an environment of approximately 250 Windows and Linux servers.

Career Breaks and Professional Development

Full-time caregiving | March 2020–August 2022

- Took time away from paid work to care for his father full time.
- Kept Azure Administrator (AZ-104) knowledge current and provided unpaid IT help to church and family.

Professional development | February 2024–February 2025

- Completed a three-month, part-time, online English-language cloud bootcamp in December 2024.
- Studied Terraform and passed the Terraform Associate certification in 2025.
- Built a Proxmox homelab.

Certifications

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Terraform Associate, 2025
