Dear Hiring Manager,

I am applying for the Butcher / Meat Counter Assistant role at FreshCart's Zagreb-Jarun store. My vocational butcher training and experience across a butcher shop and a busy market meat counter have given me practical skills in meat preparation, customer service and careful food handling.

In my current role, I break down beef and pork, bone and portion meat for the counter, make fresh sausages, and advise customers on cuts and cooking times. I rotate cold-room stock each morning using FIFO and record temperature checks twice daily. I have also prepared whole lambs and suckling pigs for catering orders, and developed sausage recipes; the shop's ćevapi won 2nd place at the Zagreb County craft meat fair in 2023. At Dolac market, I served customers, handled orders and cash-up, and wrote a closing and cleaning checklist that is still in use.

FreshCart's emphasis on trained counter staff who give customers honest advice on cuts and cooking is a strong match for the work I do. I am also preparing for the master butcher exam (majstorski ispit), planned for spring 2027. My current employer's shop is due to close at the end of 2026 as the owner retires.

I would welcome the opportunity to discuss how my meat counter experience and attention to hygiene could contribute to FreshCart. Thank you for considering my application.

Kind regards,
Tomislav Mesarić
