MARTA KOWAL-BRANDT

QA Automation Engineer | CI/CD & Test Infrastructure

Wroclaw, Poland | marta.kowalbrandt@example.com | +48 555 303 303 | gitlab.com/mkb-example

PROFESSIONAL SUMMARY

QA automation engineer with 7 years of experience, including the last two focused primarily on CI/CD pipelines, test environments and build tooling. Owns CI/CD infrastructure supporting three product teams and has improved pipeline speed and test reliability through parallelisation, dependency caching and ephemeral environments. Experienced with GitLab CI, Docker, Helm, basic Kubernetes, Linux, Python and Bash, and seeking to move into a DevOps or platform engineering role.

EXPERIENCE

QA Automation Engineer (Test Infrastructure) | Odrava Health Software, Wroclaw | 2021–Present

- Own GitLab CI pipelines for 3 product teams (~25 developers), covering build, unit, integration and end-to-end test stages, as well as artifact publishing.
- Reduced average pipeline time from 38 to 14 minutes by parallelising test jobs, caching dependencies and moving end-to-end tests to on-demand ephemeral environments.
- Built ephemeral test environments for each merge request using Docker Compose, later progressing to Helm charts on the company's shared Kubernetes cluster.
- Maintain a pytest and Playwright end-to-end suite of approximately 900 tests; reduced the flaky test rate from 7% to under 1%.
- Developed Bash and Python tooling to seed test data into PostgreSQL.

QA Engineer | Brightmill Software House, Wroclaw | 2019–2021

- Performed manual and automated testing of web and mobile applications for client projects.
- Introduced a Selenium and Java automated regression suite for the largest client project.
- Configured Jenkins jobs for nightly regression runs.

Customer Support Specialist (2nd line) | Brightmill Software House | 2018–2019

- Investigated customer issues using logs and databases, and reproduced bugs for developers.

EDUCATION

BEng Computer Engineering | Silesian Lowlands University of Technology | 2018

SKILLS

CI/CD & Infrastructure: GitLab CI, Jenkins, Docker, Docker Compose, Helm, Kubernetes (basic)
Testing: pytest, Playwright, Selenium, Postman
Programming & Scripting: Python, Bash, Java (test code), SQL
Systems & Data: Linux, Git, PostgreSQL, Grafana (dashboards for test metrics)

LANGUAGES

Polish (native), English (C1), German (A2)
