PROFESSIONAL SUMMARY

Computing graduate with First Class Honours and practical experience building and testing web applications. Developed a React and TypeScript project with a Node.js/Express API and PostgreSQL database, and contributed accessibility fixes and reusable components to a React news site during an internship. Hands-on experience with Git, automated testing, API integration, Vercel deployment and documenting reusable components in Storybook through academic, freelance and internship projects.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript
Web application development: React, Next.js, Node.js, Express, HTML5, CSS3, Tailwind CSS
Data and APIs: PostgreSQL, Firebase Authentication, public API integration
Testing and quality: Jest, React Testing Library, accessibility (WCAG 2.1), screen-reader testing
Tools: Git/GitHub, Storybook, Figma, Vercel

EDUCATION

BSc (Hons) Computing - Software Development, First Class Honours
Liffey Institute of Technology | 2021–2025
Final year project: "Tidewatch" — accessible tide and weather app for sea swimmers, built with React, TypeScript, Node.js/Express and PostgreSQL. Achieved 82% (First Class) and was demonstrated at the college project showcase.
Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms

RELEVANT EXPERIENCE

Frontend Developer (part-time, freelance) | Self-employed | Oct 2025–present

- Built a booking website for a local yoga studio using Next.js and Tailwind CSS, with statically generated marketing pages, a class timetable and booking requests sent by email.
- Deployed the website on Vercel and maintained content updates through Markdown files.
- Made small updates to two WordPress sites.

Software Development Intern | Harbourline Media, Dublin | May 2024–Aug 2024

- Contributed to the company's React news site as part of the web team.
- Fixed accessibility issues identified in an audit across 20+ components, including keyboard navigation, colour contrast and ARIA labels.
- Built a reusable, keyboard- and screen-reader-friendly image gallery for article pages and documented it with Storybook stories.
- Wrote unit tests using Jest and React Testing Library.

PROJECTS

Tidewatch | Final Year Project | 2024–2025

- Built an accessible web app displaying tides, water temperature and weather for sea swimmers around the Irish coast.

- Developed the React and TypeScript frontend and a Node.js/Express API that cached data from public weather and tide APIs; used PostgreSQL for user favourites.
- Tested with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Chart.js, Jest.

Transit Delay Notifier | Student Hackathon | 2024

- Worked in a three-person team that placed second in a student hackathon, building a transit delay notifier in 24 hours.
- Developed the frontend.

Study Buddy | Group Project | 2023

- Built the React frontend and login screens for a four-person student project: a web app for matching classmates for study sessions.
- Technologies: React, JavaScript, Firebase Authentication.

ADDITIONAL EXPERIENCE

Teaching Assistant, First-Year Web Development Lab | Spring 2025

- Supported approximately 30 students during one semester of web development labs.

Barista (part-time during studies) | Corner Bean Cafe, Dublin | 2021–2025

COMMUNITY

- Run social media for a sea swimming club.

LANGUAGES

English (native) | Mandarin (conversational)
