PROFESSIONAL SUMMARY

Junior frontend developer with hands-on experience building web applications with React and TypeScript, including an accessible sea-swimming app with a Node.js/Express API and PostgreSQL database. Experienced with accessibility improvements, automated testing, and Storybook documentation through an internship and project work. Also builds websites with Next.js and Tailwind CSS.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS
Backend and databases: Node.js, Express, PostgreSQL
Testing and tools: Jest, React Testing Library, Git/GitHub, Storybook, Figma
Accessibility: WCAG 2.1, keyboard navigation, screen-reader testing, ARIA labels, colour contrast

EXPERIENCE

Frontend Developer (Part-time, Freelance) | Self-employed *Oct 2025–Present*

- Built a booking website for a local yoga studio using Next.js and Tailwind CSS, with class timetables and booking requests sent by email.
- Deployed the website on Vercel; content is edited in Markdown files.
- Completed small updates for two WordPress sites.

Teaching Assistant, First-Year Web Development Lab | Liffey Institute of Technology *Spring 2025*

- Supported approximately 30 first-year students during one semester of web development labs.

Software Development Intern | Harbourline Media, Dublin *May 2024–Aug 2024*

- Worked with the web team on the company's React news site.
- Fixed accessibility audit issues involving keyboard navigation, colour contrast, and ARIA labels across more than 20 components.
- Built a reusable, keyboard- and screen-reader-friendly image gallery and documented it with Storybook stories.
- Wrote unit tests using Jest and React Testing Library.

Barista (Part-time during studies) | Corner Bean Cafe, Dublin *2021–2025*

PROJECTS

Tidewatch — Final-Year Project *2024–2025*

- Built an accessible web app showing tides, water temperature, and weather for sea swimmers around the Irish coast.
- Developed the frontend with React and TypeScript, and a Node.js/Express API that caches data from public weather and tide APIs.
- Used PostgreSQL to store user favourites; used Chart.js for data visualisation and Jest for testing.
- Tested with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Awarded 82% (First Class); demonstrated at the college project showcase.

Transit Delay Notifier — Student Hackathon *2024*

- Built the frontend as part of a three-person team that created a transit delay notifier in 24 hours.
- Team placed second in the student hackathon.

Study Buddy — Group Project *2023*

- Built the React frontend and login screens for a study-session matching web app in a four-person student team.
- Used Firebase Authentication; other team members developed the API and database.

EDUCATION

BSc (Hons) Computing – Software Development | Liffey Institute of Technology *2021–2025*
First Class Honours

- Final-year project: Tidewatch, an accessible tide and weather app for sea swimmers (React, TypeScript, Node.js).

- Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms.

ADDITIONAL EXPERIENCE

Volunteer, Sea Swimming Club — Runs the club's social media.

LANGUAGES

English (native) | Mandarin (conversational)
