AIYANA BROOKS-TAN

PROFESSIONAL SUMMARY

Computing student with practical experience building accessible web applications using React and TypeScript. Built a full-stack final-year project using a Node.js/Express API and PostgreSQL, and contributed accessibility fixes and React components during a software development internship. Experience includes screen-reader testing, unit/component testing with Jest and React Testing Library, and frontend work on collaborative projects.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS, web accessibility

Backend and data: Node.js, Express, PostgreSQL, Firebase Authentication

Testing and documentation: Jest, React Testing Library, Storybook, screen-reader testing (NVDA, VoiceOver)

Other: Chart.js, Vercel, Markdown

EXPERIENCE

Software Development Intern | Harbourline Media | May 2024 – Aug 2024

- Worked on accessibility fixes and React components for a news website.
- Built a keyboard- and screen-reader-friendly image gallery for article pages and documented it in Storybook.
- Implemented React components and accessibility fixes; documented components in Storybook and used Jest and React Testing Library for automated unit/component testing.

Teaching Assistant, First-Year Web Development Lab | Spring 2025

- Supported approximately 30 first-year students across one semester of web development lab sessions.

PROJECTS

Tidewatch — Final-Year Project | 2024–2025

- Built an accessible web app for sea swimmers showing tides, water temperature, and weather around the Irish coast.
- Built the application end to end: developed the React/TypeScript frontend, a Node.js/Express backend service that caches data from third-party weather and tide APIs, and PostgreSQL storage for user favourites.
- Tested the app with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Received a grade of 82% (First Class) and demonstrated the project at the college project showcase.
- Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Chart.js, Jest.

Yoga Studio Booking Site — Freelance | 2025

- Built marketing pages and a class timetable with booking requests sent by email.
- Used static generation with Next.js; deployed the site on Vercel and enabled content editing through Markdown files.
- Technologies: Next.js, React, Tailwind CSS, Vercel.

Study Buddy — Group Project | 2023

- Built the React frontend and authentication/login screens for a student team project matching classmates for study sessions, using Firebase Authentication.
- Worked in a four-student team; other team members developed the API and database.
- Technologies: React, JavaScript, Firebase Authentication.

ADDITIONAL EXPERIENCE

Social Media Volunteer | Sea Swimming Club

- Run social media for a sea swimming club.

Barista | Part-time during college

EDUCATION

Liffey Institute of Technology
Computing — Third-year student
