AIYANA BROOKS-TAN

PROFESSIONAL SUMMARY

Frontend developer with professional internship and freelance experience, plus full-stack project experience using React, TypeScript, Node.js, Express and PostgreSQL. Built and tested a screen-reader-accessible web application as a final-year project. Experience includes freelance web development, automated testing and supporting first-year web development students.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Tailwind CSS
Backend and data: Node.js, Express, PostgreSQL, public API integration
Accessibility and testing: Screen-reader testing with NVDA and VoiceOver, Jest, React Testing Library, Lighthouse
Other: Storybook, Firebase Authentication, Chart.js, Vercel, Markdown

PROFESSIONAL EXPERIENCE

Software Development Intern | Harbourline Media | May 2024–August 2024

- Implemented accessibility fixes and built React components.
- Developed a keyboard- and screen-reader-friendly image gallery for article pages and documented it in Storybook, using Jest and React Testing Library.

Freelance Web Developer | Yoga Studio Booking Site | 2025

- Built marketing pages and a class timetable with booking requests sent by email.
- Used Next.js static generation and Tailwind CSS, deployed the site on Vercel and maintained content in Markdown files.

Teaching Assistant, First-Year Web Development Lab | Spring 2025

- Supported approximately 30 students over one semester.

Barista | Part-time throughout college

PROJECTS

Tidewatch | Final-Year Project | 2024–2025

- Built an accessible web app displaying tides, water temperature and weather for sea swimmers around the Irish coast.
- Developed a React and TypeScript frontend and a Node.js/Express API that cached data from public weather and tide APIs; used PostgreSQL for user favourites.
- Tested with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Received 82% (First Class) and demonstrated the project at the college showcase.
- Technologies included Chart.js and Jest.

Transit Delay Notifier | Student Hackathon | 2024

- Built the frontend in a three-person team for a 24-hour student hackathon; placed second.

Study Buddy | Group Project | 2023

- Built the React frontend and login screens for a study-matching app in a team of four. Other team members developed the API and database.
- Used JavaScript and Firebase Authentication.

EDUCATION

Liffey Institute of Technology
Computing

VOLUNTEERING

Social media volunteer | Sea swimming club
