OSKAR HADDAD-LINDQVIST

Backend & Full-Stack Engineer | Node.js, TypeScript, PostgreSQL

Gothenburg, Sweden | +46 70 555 0808 | oskar.hl@example.com
GitHub: oskarhl-example | Blog: oskar-codes.example.com

PROFESSIONAL SUMMARY

Full-stack engineer with professional web development experience since 2014, strongest in frontend and experienced building and maintaining production backend services with Node.js, TypeScript, NestJS and Express. Hands-on experience with PostgreSQL, REST APIs, Docker, AWS deployments, automated testing and CI/CD. Contributed to production reliability through on-call work, backend migrations and performance improvements. Fluent in English. Python experience is currently limited to small personal Home Assistant integrations.

TECHNICAL SKILLS

Backend: Node.js, NestJS, Express, REST APIs, PHP, Laravel; GraphQL BFF maintenance (Apollo Server)

Databases: PostgreSQL, MySQL, MongoDB, Redis, Firebase; Prisma, TypeORM

Cloud and delivery: AWS (ECS, S3, Lambda, SQS, CloudWatch, RDS), Docker, GitHub Actions, GitLab CI, Terraform (modifying existing files), Linux

Testing and observability: Jest, Playwright, Cypress, React Testing Library, Supertest, Sentry, Datadog

Frontend: TypeScript, JavaScript, React, Next.js, Angular, AngularJS, Vue, React Native, HTML, CSS, SCSS

Other: Python (basic; personal projects), Figma, Jira, Confluence, Unleash, Agile/Scrum, BankID

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB | Gothenburg
2021–Present

- Build and maintain onboarding services and customer-facing flows using React, TypeScript, NestJS, PostgreSQL and AWS in a six-person cross-functional team.
- Designed and implemented a BankID identity verification flow, including QR-code and same-device flows, error handling and retries. A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Built a secure document-upload service using S3 presigned URLs, ClamAV scanning in Lambda, and SQS and PostgreSQL to track scan status.
- Contributed to an incremental migration of the onboarding backend from Express to NestJS, migrating route by route behind the same API gateway.
- Improved mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimisation and dependency replacement; also migrated the frontend from Create React App to Vite.
- Implemented accessibility audit fixes for the onboarding flow against WCAG 2.1 AA.
- Work with PostgreSQL and Prisma; maintain a GraphQL BFF with another developer. Contribute to automated testing with Jest and Playwright and delivery through GitHub Actions and Docker.
- Participate in the on-call rota, one week every six weeks. Interviewed approximately 30 candidates.
- Acted as team lead for four months in 2024, supporting 1:1s and sprint planning while the team lead was on parental leave.
- The onboarding team received the internal Customer Impact Award in 2023.

Developer | Sjöbris Digital Agency AB | Gothenburg

2018–2021

- Delivered websites and web applications for approximately 25 clients across retail, ferry transport, municipalities and sport.
- Built client applications with Angular, React and Vue, and backend services with Node.js/Express and PHP/Laravel.
- Served as project tech lead and built most of a two-developer React Native ferry-ticket app for purchasing and viewing tickets offline; the app reached approximately 50,000 downloads. The other developer built the payment backend.
- Developed custom WordPress themes and plugins and worked with MySQL, MongoDB and Firebase.
- Set up GitLab CI for the agency, replacing a manual FTP-based deployment process.

Web Developer | Nordkust Media AB | Gothenburg
2014–2018

- Developed newspaper websites and an article editor using PHP, jQuery and AngularJS.
- Implemented a paywall integration and worked with MySQL, Varnish caching and Ubuntu server administration.

Freelance Web Developer / Student
2012–2014

- Built websites for friends, family, a local bakery and two bands using PHP, jQuery and WordPress.

EDUCATION

Bachelor in Computer Science | West Coast University College (Högskola), Gothenburg | 2011–2014

Graduated 2014.

Additional learning: Advanced React Patterns (2022); AWS Cloud Practitioner course (2020, no exam taken).

SELECTED PROJECTS

Home Assistant Integrations | Personal | 2022–Present

- Built two small custom home-automation integrations, published on GitHub with approximately 40 stars combined.
- Technologies: Python (basic), YAML.

LANGUAGES

Swedish: Native | English: Fluent (work language) | Arabic: Spoken at home; limited writing | German: School level

ADDITIONAL

Speaker, local JavaScript meetup (2022): “Migrating Express to NestJS without stopping the world”

Coding bootcamp mentor, Gothenburg (2019–2020)

Driving licence: B
