OSKAR

Full-Stack Developer

PROFESSIONAL SUMMARY

Full-stack developer with professional experience since 2014 and a particular strength in frontend development. Builds customer-facing web applications with React and TypeScript and backend services with Node.js, NestJS and PostgreSQL. Experience includes identity verification, secure document upload, A/B testing and mobile app development.

TECHNICAL SKILLS

Frontend and mobile: React, TypeScript, React Native, Angular
Backend and databases: Node.js, NestJS, Express, PostgreSQL, TypeORM, Prisma, Laravel
Cloud and integrations: AWS ECS, S3, Lambda and SQS; provider SDKs; Firebase Cloud Messaging
Other: GraphQL and Apollo Server (BFF maintenance), WordPress, Terraform (small edits), Python (personal projects)

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB | 2021–Present

- Develop onboarding features using React, TypeScript, NestJS, PostgreSQL and AWS.
- Built a BankID identity verification step using a provider SDK, supporting QR code and same-device flows. The change was A/B tested on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Developed a document-upload flow using S3 presigned URLs, ClamAV scanning in Lambda, and SQS to pass scan status into PostgreSQL.
- Contributed to an incremental migration of the onboarding backend from Express to NestJS, moving routes behind the same API gateway. Presented the migration at a meetup in 2022.
- Maintains a GraphQL backend-for-frontend using Apollo Server.
- Served as acting team lead for four months in 2024, conducting one-to-ones and coordinating sprint planning.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Worked on client web and mobile projects using Angular, React, React Native, Laravel and WordPress.
- Led a two-developer project to build a React Native ferry-ticket app, completing most of the app while the other developer handled the payment backend. The app supports buying and showing tickets offline and has around 50,000 downloads.

Developer | Nordkust Media | Four years, prior to 2018

- Worked on newspaper websites.

PERSONAL PROJECTS

Home Assistant Integrations | 2022–Present

- Published two small custom home-automation integrations on GitHub using Python and YAML; approximately 40 stars combined.
