Tobias Mwangi-Hartley

Data Scientist

Edinburgh, UK | tobias.mwangihartley@example.com | +44 7700 900110 | linkedin.com/in/tmh-example

PROFESSIONAL SUMMARY

Data scientist with 6 years of experience in analytics and data science, including 4+ years as a data scientist. Experienced in building forecasting and churn models used by operations and retention teams, designing experiments, and maintaining analytics data models. Strong Python, SQL and statistical skills, with a focus on translating business questions into actionable analyses. Experienced in developing applied machine learning models for operational and retention use cases, with production SQL and analytics data-modelling experience.

TECHNICAL SKILLS

Programming: Python (pandas), R (tidyverse, brms), SQL
Machine learning: scikit-learn, LightGBM, XGBoost, forecasting, customer analytics, feature engineering with calendar features
Statistics: A/B testing, causal inference, Bayesian statistics, statsmodels
Data and analytics engineering: BigQuery (Google Cloud), dbt
Tools: Git, Jupyter, Looker

PROFESSIONAL EXPERIENCE

Data Scientist | Thistlebox, meal-kit subscriptions | Edinburgh
Feb 2022–Present

- Built a weekly demand forecasting model for individual recipes using LightGBM; performed feature engineering with calendar features. Used by operations to order ingredients, reducing WAPE from 23% to 14% and estimated food waste by 9%.
- Built an XGBoost churn propensity model used to target retention offers; evaluated targeting uplift using a holdout set.
- Write production SQL in BigQuery and maintain dbt models for the analytics layer.
- Design and analyse approximately 40 A/B tests per year for growth and product teams; built the team's sequential testing calculator.
- Present results to leadership monthly.

Junior Data Analyst | Firth Energy Retail | Glasgow
Sep 2020–Jan 2022

- Conducted customer segmentation and tariff analysis using R and SQL.
- Automated monthly regulator reports using R Markdown.

EDUCATION

MSc Statistics, Distinction | University of the Lothians | 2020
Dissertation: Bayesian hierarchical models for small-area energy demand

BSc Mathematics | University of the Lothians | 2019

LANGUAGES

English (native), Swahili (conversational)
