MARTA KOWAL-BRANDT

DevOps & Cloud Infrastructure | CI/CD and Test Infrastructure

Wroclaw, Poland | marta.kowalbrandt@example.com | +48 555 303 303 | gitlab.com/mkb-example

PROFESSIONAL SUMMARY

QA automation engineer with 7 years of experience, including the last two focused primarily on CI/CD pipelines, test environments and build tooling. Hands-on experience building GitLab CI workflows and ephemeral Kubernetes test environments, alongside personal projects using Terraform, k3s and GitOps. Brings a foundation in Linux, Python, Bash and PostgreSQL, with a track record of improving delivery workflows and documenting technical processes for teams.

TECHNICAL SKILLS

Infrastructure and CI/CD: GitLab CI, Jenkins, Docker, Docker Compose, Helm, Terraform (personal projects), Argo CD
Containers and operations: Kubernetes (namespace-level access; Helm deployments), k3s, Linux, Traefik, cert-manager
Monitoring and data: Prometheus, Grafana, Loki, PostgreSQL
Programming and scripting: Python, Bash, Java (test code), SQL
Testing: pytest, Playwright, Selenium, Postman
Cloud learning: AWS fundamentals (EC2, S3; personal free-tier use)

PROFESSIONAL EXPERIENCE

QA Automation Engineer (Test Infrastructure) | Odrava Health Software, Wroclaw *2021–Present*

- Own GitLab CI pipelines for three product teams of approximately 25 developers, covering build, unit, integration and end-to-end test stages, plus artifact publishing.
- Reduced average pipeline duration from 38 to 14 minutes by parallelising test jobs, caching dependencies and separating end-to-end tests into their own stage; monthly CI runner costs fell by approximately 30%.
- Built merge-request ephemeral environments with Docker Compose and later Helm charts on the shared Kubernetes cluster. Each environment includes the application, PostgreSQL and seeded data; it is removed after merge or 48 hours of inactivity.
- Maintain a pytest and Playwright end-to-end suite of approximately 900 tests; reduced the flaky-test rate from 7% to below 1%.
- Wrote Bash and Python tooling to seed PostgreSQL test data.
- Collected CI test results in PostgreSQL and built Grafana dashboards to highlight flaky tests by team.
- Wrote an internal guide to the CI system that is used in team onboarding.
- Mentored two QA interns in 2023.

QA Engineer | Brightmill Software House, Wroclaw *2019–2021*

- Tested web and mobile applications for client projects through manual and automated testing.
- Introduced a Java and Selenium automated regression suite for the largest client project.
- Configured Jenkins jobs to run nightly regression tests.

Customer Support Specialist (2nd Line) | Brightmill Software House *2018–2019*

- Investigated customer issues using logs and databases, and reproduced bugs for developers.

SELECTED INFRASTRUCTURE PROJECTS

Homelab k3s Cluster with GitOps | Personal | 2024–2025

- Built a three-node k3s cluster on Raspberry Pi 5 devices and deployed applications from a Git repository using Argo CD.
- Set up Prometheus, Grafana and Loki for monitoring, Traefik ingress, and cert-manager for TLS.
- Provisioned infrastructure for a small Hetzner VPS using Terraform; used Ansible at a basic level.

Merge-Request Ephemeral Environments | Odrava Health | 2023–2024

- Delivered short-lived application and PostgreSQL environments for merge requests through GitLab CI and Helm on the shared Kubernetes cluster.
- Enabled QA and product reviewers to examine features before merge, with end-to-end tests running against each environment.
- Automated environment cleanup after merge or 48 hours of inactivity.

CI Pipeline Speed-up | Odrava Health | 2022

- Profiled CI pipelines across three teams, parallelised test jobs, added dependency caching and split end-to-end testing into a separate stage.
- Reduced average pipeline time from 38 to 14 minutes and monthly CI runner costs by approximately 30%.

EDUCATION

BEng, Computer Engineering | Silesian Lowlands University of Technology | 2018

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

ISTQB Foundation Level | 2019
Certified Kubernetes Administrator (CKA) preparation; exam scheduled for January 2027
