Samuel Achterberg-Osei

Cloud Engineer | Azure Infrastructure & DevOps
applicant.inbox@example.com | +44 7700 900123

PROFESSIONAL SUMMARY

Azure infrastructure and DevOps engineer with hands-on experience designing and operating cloud environments, building Terraform-based infrastructure, and automating delivery with Azure DevOps. Delivered Azure landing-zone networking, CI/CD pipelines for 15 internal applications, and a 60-server VMware-to-Azure migration completed across six weekends without unplanned downtime. Brings operational experience with AKS, Linux and Windows servers, networking, and practical Microsoft 365 security configuration.

TECHNICAL SKILLS

Cloud: Microsoft Azure, Azure IaaS, Azure Migrate, Azure Virtual Networks, Azure Firewall, Azure Private DNS, private endpoints, App Service, AKS
Infrastructure as code: Terraform, Terraform modules, infrastructure drift detection
CI/CD and containers: Azure DevOps Pipelines, YAML pipelines, Docker, Helm
Networking and security: Hub-spoke networking, VNet peering, site-to-site VPN, Microsoft 365, Entra ID, MFA, conditional access, mailbox auditing
Systems and scripting: Windows, Linux, VMware, PowerShell; Python (small scripts); Go (Terratest tests only)

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics | 2025–Present

- Designed Azure hub-spoke landing-zone networking using Terraform, Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across three subscriptions.
- Developed Terraform modules, added Terratest module tests to the Azure DevOps pipeline, and implemented a nightly infrastructure drift-detection job.
- Replaced manual deployments of 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test, and deployment to App Service or AKS.
- Increased deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS, including upgrades, node pools, and ingress; application manifests are owned by developers.

Freelance IT Support | 2022–2023

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines, enabling MFA, conditional access, mailbox auditing, and backups.

Systems Administrator | Maasbrug Gemeente IT Services | 2014–2020

- Administered around 250 Windows and Linux servers and supported staff across several municipal services.
- Planned and executed the lift-and-shift migration of 60 servers from VMware to Azure using Azure Migrate; cutover was completed over six weekends without unplanned downtime.
- Used PowerShell to automate repetitive IT work.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Family caregiving | March 2020–August 2022

- Took a career break for full-time family caregiving; maintained Azure Administrator Associate knowledge and provided unpaid IT support to church and family.

Professional development | February 2024–February 2025

- Completed a part-time, online, English-language cloud bootcamp in December 2024.
- Studied Terraform and built a Proxmox homelab.

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104)
Terraform Associate (2025)
