PROFESSIONAL SUMMARY

Junior developer with hands-on experience building accessible web applications using React and TypeScript, including a software development internship and freelance work. Developed a full-stack final-year project using Node.js, Express and PostgreSQL, and has experience writing unit tests with Jest and React Testing Library. First Class Honours graduate in Computing – Software Development, with a strong focus on accessible, user-centred interfaces.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, HTML5, CSS3, Tailwind CSS
Backend and data: Node.js, Express, PostgreSQL
Testing and tools: Jest, React Testing Library, Storybook, Git/GitHub, Figma
Other: Web accessibility (WCAG 2.1)

EXPERIENCE

Frontend Developer (Part-time, Freelance) | Self-employed *Oct 2025–Present*

- Built a booking website for a local yoga studio using Next.js and Tailwind CSS, with class timetable and booking requests sent by email.
- Deployed the website on Vercel and set up content editing through Markdown files.
- Completed small updates for two WordPress sites.

Teaching Assistant, First-Year Web Development Lab | Liffey Institute of Technology *Spring 2025*

- Supported approximately 30 students during one semester of first-year web development labs.

Software Development Intern | Harbourline Media, Dublin *May 2024–Aug 2024*

- Worked with the web team on the company's React news site.
- Fixed accessibility audit issues involving keyboard navigation, colour contrast and ARIA labels across 20+ components.
- Built a reusable, keyboard- and screen-reader-friendly image gallery and documented it with Storybook stories.
- Wrote unit tests using Jest and React Testing Library.

Barista (Part-time during studies) | Corner Bean Cafe, Dublin *2021–2025*

PROJECTS

Tidewatch — Final-Year Project *2024–2025*

- Built an accessible web app for sea swimmers displaying tides, water temperature and weather around the Irish coast.
- Developed the frontend with React and TypeScript, and a Node.js/Express API that caches data from public weather and tide APIs; used PostgreSQL for user favourites.
- Tested the app with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Received 82% (First Class) and demonstrated the project at the college showcase.
- Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Chart.js, Jest.

Yoga Studio Booking Site | Freelance *2025*

- Created marketing pages and a class timetable, with booking requests sent by email.
- Technologies: Next.js, React, Tailwind CSS, Vercel.

Study Buddy — Group Project *2023*

- Built the React frontend and login screens for a four-person team project: a web app matching classmates for study sessions.
- Technologies: React, JavaScript, Firebase Authentication.

OTHER ACHIEVEMENTS AND VOLUNTEERING

- Second place, student hackathon (2024): developed the frontend for a transit delay notifier in a three-person team over 24 hours.

- Run social media for a sea swimming club.

EDUCATION

BSc (Hons) Computing – Software Development | Liffey Institute of Technology *2021–2025*
First Class Honours
Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms

LANGUAGES

English (native) | Mandarin (conversational)
