PROFESSIONAL SUMMARY

Early-career developer with experience building accessible React interfaces and project-based experience using TypeScript, Node.js, Express and PostgreSQL. Applied accessibility improvements to a React news site and developed Tidewatch, a full-stack web app tested with screen readers. Familiar with Jest, React Testing Library and Storybook.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS
Backend and databases: Node.js, Express, PostgreSQL
Testing and tools: Jest, React Testing Library, Storybook, Git/GitHub, Figma
Other: Web accessibility: keyboard navigation, colour contrast, ARIA labels, screen-reader testing (NVDA, VoiceOver), WCAG 2.1.

EXPERIENCE

Frontend Developer (part-time, freelance) | Self-employed | Oct 2025–Present

- Built and deployed a yoga-studio booking website using Next.js, React and Tailwind CSS; implemented marketing pages, a class timetable, static generation and email booking requests.
- Made updates to two WordPress sites.

Teaching Assistant, Web Development Lab | Liffey Institute of Technology | Spring 2025

- Supported approximately 30 first-year students during one semester of web-development labs, answering questions and helping them resolve practical problems.

Software Development Intern | Harbourline Media, Dublin | May 2024–Aug 2024

- Worked with the web team on the company's React news site.
- Fixed accessibility issues across 20+ components, including keyboard navigation, colour contrast and ARIA labels.
- Built a reusable, keyboard- and screen-reader-friendly image gallery and documented it with Storybook stories.
- Wrote unit tests using Jest and React Testing Library.

Barista (part-time during studies) | Corner Bean Cafe, Dublin | 2021–2025

SELECTED PROJECTS

Tidewatch | Final Year Project *2024–2025*

- Developed an accessible React and TypeScript web app showing tides, water temperature and weather for sea swimmers around the Irish coast.
- Built a Node.js/Express API to cache data from public weather and tide APIs and used PostgreSQL for user favourites.
- Tested with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Earned 82% (First Class) and presented the project at the college showcase.
- Technologies: React, TypeScript, Node.js, Express, PostgreSQL, Chart.js, Jest.

Yoga Studio Booking Site | Freelance *2025*

- Built marketing pages and a class timetable with booking requests sent by email. Used static generation and Markdown files for content; deployed on Vercel.
- Technologies: Next.js, React, Tailwind CSS, Vercel.

Study Buddy | Group Project *2023*

- Built the React frontend and login screens for a study-session matching app as part of a four-person team; other team members developed the API and database.
- Technologies: React, JavaScript, Firebase Authentication.

Transit Delay Notifier | Student Hackathon *2024*

- Built the frontend for a transit delay notifier with a three-person team in a 24-hour hackathon; the team placed second.

EDUCATION

BSc (Hons) Computing – Software Development | Liffey Institute of Technology | 2021–2025

First Class Honours
Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms

LANGUAGES

English (native) | Mandarin (conversational)

VOLUNTEERING

Run social media for a sea swimming club.
