Oskar Haddad-Lindqvist

Gothenburg, Sweden | +46 70 555 0808 | oskar.hl@example.com | GitHub: oskarhl-example

Professional Summary

Full-stack developer with 12 years of professional experience building and maintaining web applications and backend services. Strong production experience with Node.js, TypeScript, REST APIs, PostgreSQL, Docker, AWS and automated testing. Recent work includes developing onboarding services, integrating external APIs, improving frontend performance, and incrementally migrating an Express backend to NestJS. Fluent in English and experienced working in an on-call rotation.

Technical Skills

- **Backend:** Node.js, NestJS, Express, REST APIs, GraphQL (maintaining a BFF), PHP, Laravel
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, TypeORM
- **Cloud & CI/CD:** AWS (ECS, S3, Lambda, SQS, CloudWatch, RDS), Docker, GitHub Actions, GitLab CI, Linux
- **Testing & Observability:** Jest, Playwright, Cypress, React Testing Library, Supertest, Sentry, Datadog
- **Frontend:** TypeScript, JavaScript, React, Next.js, Angular, AngularJS, Vue, React Native
- **Other:** Python (basic; personal Home Assistant integrations), Terraform (small changes to existing files), Figma, Jira, Confluence, Unleash

Professional Experience

Full-Stack Developer | Älvgrind Fintech AB | Gothenburg *2021–Present*

- Develop onboarding services and customer flows using React, TypeScript, Node.js/NestJS and PostgreSQL; deploy services on AWS ECS with GitHub Actions.
- Built a BankID identity-verification flow integrating the BankID API through a provider SDK, including QR-code and same-device flows, error states and retries. A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Built a secure document-upload service using S3 presigned URLs, ClamAV scanning in Lambda, and SQS and PostgreSQL to track scan status.
- Helped migrate the onboarding backend incrementally from Express to NestJS, moving routes behind the same API gateway.
- Improved mobile Largest Contentful Paint from 4.1 seconds to 1.9 seconds through code splitting, image optimisation, removing Moment.js, replacing a large charting library, and using Next.js SSR for landing pages.
- Contributed accessibility fixes to the onboarding flow in line with WCAG 2.1 AA, and migrated the frontend from Create React App to Vite in 2023.
- Participate in the on-call rotation, one week every six weeks; maintain a GraphQL BFF with another developer.
- Collaborate with designers in Figma, interview candidates, and contribute across a six-person onboarding team. Acted as team lead for four months in 2024, covering 1:1s and sprint planning.
- The onboarding team received the internal Customer Impact Award in 2023.

Developer | Sjöbris Digital Agency AB | Gothenburg *2018–2021*

- Built websites and web applications for approximately 25 clients across retail, transport, local government and sports.
- Developed client applications using Angular, React and Vue, with Node.js/Express and PHP/Laravel backends; also built and maintained custom WordPress themes and plugins.
- Served as project tech lead and, with one other developer, built a React Native ferry-ticket app for purchasing and displaying tickets offline; the app reached approximately 50,000 downloads.
- Set up GitLab CI for the agency, replacing a manual FTP-based deployment process.
- Worked with MySQL, MongoDB and Firebase across client projects.

Web Developer | Nordkust Media AB | Gothenburg *2014–2018*

- Developed newspaper websites and an AngularJS article editor using PHP, jQuery and MySQL.
- Implemented a paywall integration and worked on Varnish caching configuration and Ubuntu server administration.

Freelance Developer / Student *2012–2014*

- Built websites for friends, family, a local bakery and two bands using PHP, jQuery and WordPress.

Selected Projects

Express-to-NestJS Backend Migration | Älvgrind Fintech | 2021–2022

- Contributed to an incremental, route-by-route migration of the onboarding backend from Express to NestJS behind the same API gateway.
- Presented the migration approach at a local JavaScript meetup in 2022.

Home Assistant Integrations | Personal | 2022–Present

- Built two small custom home-automation integrations published on GitHub, with approximately 40 stars combined.
- Technologies: basic Python, YAML.

Education

- **Bachelor in Computer Science**, West Coast University College (Högskola), Gothenburg | 2011–2014
- **Natural Science Programme**, Gymnasium | 2008–2011
- Additional learning: Advanced React Patterns (2022); AWS Cloud Practitioner course (2020; exam not taken); Coursera Machine Learning (2017; not completed)

Additional Experience

- Mentor at a coding bootcamp in Gothenburg, 2019–2020.
- Speaker at a local JavaScript meetup in 2022: “Migrating Express to NestJS without stopping the world.”

Languages

- Swedish: Native
- English: Fluent; used as a working language
- Arabic: Spoken at home; limited writing
- German: School-level
