OSKAR HADDAD-LINDQVIST

Full-Stack Developer | React, TypeScript, Node.js

oskar.hl@example.com | +46 70 555 0808 | GitHub: oskarhl-example

PROFESSIONAL SUMMARY

Full-stack developer with 12+ years of professional web development experience and a particular strength in frontend development. Experienced in building customer-facing applications with React, TypeScript, Node.js and SQL, with a focus on accessible, high-performance customer-facing experiences and automated testing. Fluent in English.

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB | 2021–Present

- Build customer onboarding and KYC features in a six-person cross-functional team using React, TypeScript, NestJS and PostgreSQL.
- Built a BankID identity verification flow using a provider SDK, including QR-code and same-device flows, error handling and retries. A/B testing preceded a full rollout; onboarding conversion increased from 61% to 74%.
- Built secure document upload using S3 presigned URLs, ClamAV malware scanning in AWS Lambda, and scan-status updates through SQS and PostgreSQL.
- Improved mobile Largest Contentful Paint (LCP) from 4.1 to 1.9 seconds through code splitting, image optimisation and dependency changes. Used Next.js server-side rendering for marketing pages.
- Remediated WCAG 2.1 AA accessibility-audit findings in the onboarding flow and collaborated with designers in Figma.
- Helped migrate the backend incrementally from Express to NestJS and the frontend from Create React App to Vite. Maintained a GraphQL BFF with another developer.
- Deployed using AWS ECS Fargate and GitHub Actions; used Jest, Playwright, Docker, Storybook and Unleash. Participated in on-call rotations.
- Served as acting team lead for four months in 2024, conducting one-to-ones and sprint planning. Interviewed approximately 30 candidates.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Built websites and web applications for approximately 25 clients using Angular, React, Node.js, Express, Laravel and WordPress.
- Led a two-developer ferry ticket app project and built most of the React Native app, which reached approximately 50,000 downloads. The app supported ticket purchase and offline ticket display.
- Set up GitLab CI for the agency, replacing an FTP-based deployment workflow.

Web Developer | Nordkust Media AB | 2014–2018

- Developed newspaper websites using PHP, jQuery and MySQL, and an article editor using AngularJS.
- Built a paywall integration and worked on Varnish caching and Ubuntu server administration.

Freelance Web Developer | 2012–2014

- Built websites for individuals and a local bakery using PHP, jQuery and WordPress.

EDUCATION

Bachelor in Computer Science | West Coast University College, Gothenburg | 2011–2014

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Next.js, Angular, React Native, Storybook, Web accessibility: WCAG 2.1 AA audit remediation

Backend and data: Node.js, NestJS, Express, REST, GraphQL, PostgreSQL, MySQL, Prisma, PHP, Laravel

Cloud and delivery: Git, GitHub Actions, GitLab CI, AWS ECS/Fargate, S3, Lambda, SQS and CloudWatch; Docker

Testing and monitoring: Jest, Playwright, Cypress, React Testing Library, Supertest, Sentry, Datadog

Other: Figma, Agile/Scrum, A/B testing, BankID

ADDITIONAL EXPERIENCE

- Mentor at a coding bootcamp, 2019–2020.
- Speaker at a local JavaScript meetup, 2022: “Migrating Express to NestJS without stopping the world.”
