PROFESSIONAL SUMMARY

Full-stack developer with 12 years of professional web development experience and a particular strength in frontend engineering. Builds customer-facing applications with React, TypeScript, Node.js and SQL, with experience spanning accessibility, mobile performance, identity verification and automated testing. Experienced in cross-functional product teams and mentoring.

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB | 2021–Present

- Build customer onboarding and KYC flows in a six-person team using React, TypeScript, NestJS and PostgreSQL.
- Built a BankID identity verification flow using a provider SDK, including QR code and same-device flows, error handling and retries. A/B tested the flow on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Built a document upload flow using S3 presigned URLs, ClamAV scanning in AWS Lambda, and scan status updates through SQS and PostgreSQL.
- Improved mobile Largest Contentful Paint from 4.1 to 1.9 seconds through code splitting, image optimisation and dependency changes. Used Next.js server-side rendering for landing pages.
- Addressed WCAG 2.1 AA accessibility audit findings in the onboarding flow and migrated the frontend from Create React App to Vite.
- Helped migrate the backend incrementally from Express to NestJS and maintains a GraphQL BFF with another developer.
- Worked with designers in Figma, supported production through an on-call rotation and interviewed candidates. Served as acting team lead for four months in 2024, conducting 1:1s and sprint planning.
- The onboarding team received an internal customer impact award in 2023.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Built websites and web applications for approximately 25 clients using React, Angular, Node.js, Express, PHP and Laravel.
- Served as project tech lead on a two-developer React Native ferry ticket app, building most of the app, including ticket purchase and offline display. The app reached approximately 50,000 downloads.
- Set up GitLab CI for the agency and developed custom WordPress themes and plugins.

Web Developer | Nordkust Media AB | 2014–2018

- Developed newspaper websites using PHP, jQuery and MySQL, and worked on an AngularJS article editor.
- Built a paywall integration and contributed to Varnish caching configuration and Ubuntu server administration.

Freelance Web Developer / Student | 2012–2014

- Built websites for individuals, a local bakery and two bands using PHP, jQuery and WordPress.

SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Next.js, Angular, React Native, Storybook
Backend and databases: Node.js, NestJS, Express, REST, GraphQL, PostgreSQL, MySQL, Prisma
Testing and workflows: Jest, Playwright, Cypress, React Testing Library, GitHub Actions, GitLab CI
Cloud and operations: AWS ECS, S3, Lambda, SQS and CloudWatch; Docker; Linux
Other: WCAG 2.1 AA accessibility audit fixes, A/B testing, Figma, Unleash, Agile/Scrum, BankID

EDUCATION

Bachelor in Computer Science | West Coast University College (Högskola) | 2011–2014

ADDITIONAL EXPERIENCE

- Mentor, coding bootcamp | 2019–2020
- Speaker, local JavaScript meetup | 2022: “Migrating Express to NestJS without stopping the world”
