# Tobias Mwangi-Hartley

Data Scientist | Forecasting, Customer Analytics & Applied Machine Learning

Edinburgh, UK | tobias.mwangihartley@example.com | +44 7700 900110 | linkedin.com/in/tmh-example

## PROFILE

Data scientist with 6 years of experience in analytics and data science, including forecasting, customer propensity modelling, experimentation, production SQL and dbt. Built and evaluated models used by operations and retention teams. Strong Python and statistics skills, with experience developing models used by operations and retention teams, production SQL, and maintaining dbt models. Now moving towards machine learning engineering.

## EXPERIENCE

**Data Scientist | Thistlebox (meal-kit subscriptions), Edinburgh** *Feb 2022 – Present*

- Designed and analysed approximately 40 A/B tests per year for growth and product teams; built the team's sequential testing calculator.
- Developed a weekly recipe-level demand forecasting model using LightGBM and calendar feature engineering; used by operations to inform ingredient ordering, reducing WAPE from 23% to 14% and estimated food waste by 9%.
- Developed a churn propensity model using XGBoost to target retention offers; validated uplift with a holdout.
- Write production SQL in BigQuery and maintain dbt models for the analytics layer.
- Present results to leadership monthly.

**Junior Data Analyst | Firth Energy Retail, Glasgow** *Sep 2020 – Jan 2022*

- Conducted customer segmentation and tariff analysis using R and SQL.
- Automated monthly regulator reports with R Markdown.

## EDUCATION

**MSc Statistics, University of the Lothians** 2020 | Distinction
Dissertation: Bayesian hierarchical models for small-area energy demand

**BSc Mathematics, University of the Lothians** 2019

## SKILLS

**Programming and data:** Python (pandas, scikit-learn, LightGBM, XGBoost, statsmodels), R (tidyverse, brms), SQL; Google BigQuery (GCP/Google Cloud)
**Data and tools:** dbt, Git, Jupyter, Looker
**Methods:** Feature engineering: calendar features, time-series forecasting, A/B testing, causal inference, Bayesian statistics

## LANGUAGES

English (native) | Swahili (conversational)
