Samuel Achterberg-Osei

Cloud Infrastructure / DevOps Engineer

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with hands-on experience designing, building, and operating Azure environments, including landing-zone network architecture, Terraform infrastructure as code, Azure DevOps deployment automation, and AKS operations. Experience includes Azure landing-zone networking, AKS operations, cloud migration, and security automation. Combines systems administration experience across Windows and Linux with practical infrastructure automation using PowerShell.

CORE SKILLS

Cloud and infrastructure: Microsoft Azure, Azure IaaS, Azure landing zones, Azure Migrate, Azure VMs
Infrastructure as code and automation: Terraform, Terraform modules, PowerShell, Azure DevOps YAML pipelines, Go (Terratest tests), Python (small scripts)
Networking and security: Hub-spoke networking, VNets, VNet peering, Azure Firewall, private DNS zones, private endpoints, site-to-site VPN, Microsoft 365 security baselines, Entra ID, MFA, conditional access
Containers and delivery: AKS operations (upgrades, node pools, ingress), Docker, Helm, App Service, CI/CD
Systems: Windows and Linux servers, VMware, Proxmox

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics *2025–Present*

- Build and maintain Azure landing-zone infrastructure, Terraform modules, and Azure DevOps pipelines.
- Designed and implemented hub-spoke cloud network architecture in Terraform, including Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across three subscriptions.
- Added Terratest module tests to the pipeline and a nightly infrastructure drift-detection job.
- Replaced manual deployment processes for 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test, and deployment to App Service or AKS.
- Helped increase deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS upgrades, node pools, and ingress; application manifests remain owned by development teams.

Freelance IT Support *2022–2023*

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines.
- Enabled MFA, conditional access, mailbox auditing, and backups for small clients.

Systems Administrator | Maasbrug Gemeente IT Services *2014–2020*

- Administered approximately 250 Windows and Linux servers and supported staff across several municipal services.
- Planned and executed the lift-and-shift migration of 60 servers from VMware to Azure IaaS using Azure Migrate.

- Completed cut-over over six weekends with no unplanned downtime.
- Used PowerShell to automate infrastructure and administrative tasks.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Caregiving and unpaid IT support *Mar 2020–Aug 2022*

- Left municipal employment to provide full-time care for father; provided unpaid IT help to church and family during this period.

Independent study and cloud training *Feb 2024–Feb 2025*

- Studied Terraform and built a Proxmox homelab.
- Completed a three-month, part-time online, English-language cloud bootcamp in Dec 2024.

CERTIFICATIONS

- Microsoft Azure Administrator Associate
- HashiCorp Terraform Associate, 2025
