OSKAR

Senior Full-Stack / Frontend Engineer

PROFESSIONAL SUMMARY

Senior full-stack engineer with 12 years of professional experience building web and mobile applications. Strongest in frontend development with React and TypeScript, with hands-on experience building Node.js services and working with PostgreSQL. Experienced in onboarding and identity-verification features, secure document workflows, and leading delivery on a customer-facing mobile app. Also served as acting team lead for four months in 2024.

TECHNICAL SKILLS

Frontend: React, TypeScript, React Native, Angular
Backend: Node.js, NestJS, Express, GraphQL, Apollo Server
Databases and data: PostgreSQL, TypeORM, Prisma
Cloud and messaging: AWS ECS, S3, Lambda, SQS, Firebase Cloud Messaging
Other: Laravel, WordPress, Terraform (small edits), Python (basic), YAML

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB *2021–Present*

- Build onboarding features using React, TypeScript, NestJS, PostgreSQL and AWS.
- Delivered a Swedish BankID identity-verification step supporting QR-code and same-device flows through a provider SDK. A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Implemented a secure ID-document upload flow using S3 presigned URLs, ClamAV virus scanning in Lambda, SQS status updates and PostgreSQL.
- Contributed to an incremental migration of the onboarding backend from Express to NestJS, moving route by route behind the same API gateway.
- Maintained a backend-for-frontend (BFF) using Apollo Server and GraphQL.
- Served as acting team lead for four months in 2024 during the team lead's parental leave, including 1:1s and sprint planning.

Developer | Sjöbris Digital Agency AB *2018–2021*

- Delivered web and mobile projects for agency clients using Angular, React, React Native, Laravel and WordPress.
- Tech lead and primary app developer for a ferry-ticket mobile application, working in a two-developer team. Built the React Native and TypeScript app for purchasing and showing tickets offline; the other developer handled the payment backend. The app reached approximately 50,000 downloads.

Developer | Nordkust Media *2014–2018*

- Worked on newspaper websites.

SELECTED PROJECTS

Express to NestJS Migration | Älvgrind Fintech *2021–2022*

- Helped migrate the onboarding backend incrementally from Express to NestJS, route by route, behind the same API gateway.
- Gave a meetup talk about the migration in 2022.

- Technologies: Node.js, Express, NestJS, TypeORM, Prisma.

BankID Identity Verification Flow | Älvgrind Fintech *2022*

- Built a new onboarding identity step using Swedish BankID, including QR-code and same-device flows through a provider SDK.
- A/B tested on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Technologies: React, TypeScript, NestJS, PostgreSQL, AWS ECS.

Secure Document Upload | Älvgrind Fintech *2023*

- Built an ID-document upload flow supporting files up to 20 MB, with S3 presigned URLs, ClamAV virus scanning in Lambda, and scan-status updates through SQS into PostgreSQL.
- Technologies: AWS S3, Lambda, SQS, NestJS, PostgreSQL.

Ferry Ticket Mobile App | Sjöbris Digital, for a ferry operator *2019–2020*

- Led the technical delivery and built most of a React Native app for buying and showing ferry tickets offline. The app reached approximately 50,000 downloads.
- Technologies: React Native, TypeScript, Node.js, Firebase Cloud Messaging.

PERSONAL PROJECTS

Home Assistant Integrations | *2022–Present*

- Built two small custom home-automation integrations, published on GitHub with approximately 40 stars combined.
- Technologies: Python (basic), YAML
