MARTA KOWAL-BRANDT

QA Automation Engineer | CI/CD & Test Infrastructure
Wroclaw, Poland | marta.kowalbrandt@example.com | +48 555 303 303 | gitlab.com/mkb-example

PROFESSIONAL SUMMARY

QA automation engineer with 7 years of experience, including the last two focused primarily on CI/CD pipelines, test environments and build tooling. Owns GitLab CI pipelines supporting three product teams and has improved pipeline speed, test reliability and the availability of ephemeral test environments. Brings hands-on experience with Docker, Helm, Kubernetes, Linux, Python and Bash, and is seeking to apply this infrastructure experience in a DevOps or platform engineering role.

SKILLS

CI/CD and build tooling: GitLab CI, Jenkins, pipeline design and maintenance, artifact publishing
Infrastructure and environments: Docker, Docker Compose, Helm, Kubernetes (basic), Linux
Programming and scripting: Python, Bash, Java (test code), SQL
Testing and observability: pytest, Playwright, Selenium, Postman, Grafana dashboards for test metrics
Databases and tools: PostgreSQL, Git

PROFESSIONAL EXPERIENCE

QA Automation Engineer (Test Infrastructure) | Odrava Health Software, Wroclaw | 2021–Present

- Own GitLab CI pipelines for three product teams (approximately 25 developers), covering build, unit, integration and end-to-end test stages, as well as artifact publishing.
- Reduced average pipeline duration from 38 to 14 minutes by parallelising test jobs, caching dependencies and moving end-to-end tests to on-demand ephemeral environments.
- Built ephemeral test environments for each merge request using Docker Compose, later using Helm charts on the company's shared Kubernetes cluster.
- Maintain a pytest and Playwright end-to-end suite of approximately 900 tests; reduced the flaky-test rate from 7% to under 1%.
- Developed Bash and Python tooling to seed test data into PostgreSQL.

QA Engineer | Brightmill Software House, Wroclaw | 2019–2021

- Performed manual and automated testing of web and mobile applications for client projects.
- Introduced a Selenium and Java automated regression suite for the largest client project.
- Configured Jenkins jobs for nightly regression runs.

Customer Support Specialist (2nd line) | Brightmill Software House | 2018–2019

- Investigated customer issues using logs and databases, and reproduced bugs for developers.

EDUCATION

BEng, Computer Engineering | Silesian Lowlands University of Technology | 2018
