Daniel Okafor-Reyes

Backend Engineer | Java, REST APIs & Event-Driven Services

Lisbon, Portugal | daniel.okafor-reyes@example.com | +351 555 010 202 | LinkedIn: linkedin.com/in/daniel-okafor-reyes-example

PROFESSIONAL SUMMARY

Backend engineer with 7 years of experience designing and running Java/Spring Boot services for insurance and travel products. Experienced with relational databases, REST APIs, Kafka event-driven integration, automated testing, and deploying services to AWS Kubernetes. Production-focused engineer with a track record of improving API performance and reliability.

EXPERIENCE

Backend Engineer, Tejo Insurance Tech | Lisbon | Jan 2022–Present

- Develop and maintain 7 Java 17 Spring Boot microservices for policy quoting and claims intake.
- Designed the versioned REST API for partner quoting integration used by 12 broker partners, documented with OpenAPI.
- Consume and produce Kafka events for the claims workflow; introduced idempotent consumers and an outbox table, removing duplicate claim records.
- Reduced p99 quote endpoint latency from 1.8 seconds to 450 milliseconds by adding Redis caching and fixing JPA N+1 queries.
- Deploy services to Kubernetes (AWS EKS) using Helm charts and Jenkins pipelines; participate in on-call one week per month.

Software Developer, Viajar Online S.A. | Porto | Sep 2019–Dec 2021

- Built booking and payment features in a Java 11/Spring MVC monolith backed by Oracle.
- Wrote integration tests with Testcontainers, raising payments-module test coverage from 35% to 70%.
- Helped split the monolith by extracting the notifications service using Spring Boot and RabbitMQ.

Junior Developer (internship then full-time), CodeFarol Lda | Porto | Jul 2018–Aug 2019

- Performed PHP and later Java maintenance work for small business clients.

EDUCATION

BSc Informatics Engineering, Atlantic Polytechnic Institute | 2018

TECHNICAL SKILLS

Backend: Java (8–17), Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Kotlin (basic)
APIs and messaging: REST, OpenAPI, Kafka, RabbitMQ
Databases and caching: PostgreSQL, Oracle, Redis
Cloud and delivery: AWS (EKS, S3, SQS), Docker, Kubernetes, Helm, Jenkins
Testing and tools: JUnit 5, Testcontainers, Git, Linux

LANGUAGES

English (fluent), Portuguese (fluent), Spanish (conversational)
