Samuel Achterberg-Osei

Cloud Infrastructure / DevOps Engineer

Email: applicant.inbox@example.com | Phone: +44 7700 900123

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with experience designing and operating Azure environments, building infrastructure as code with Terraform, and automating deployments with Azure DevOps. Background includes Azure landing-zone networking, AKS operations, infrastructure security, and migration of virtualized workloads to Azure. Previously administered around 250 Windows and Linux servers in a municipal IT department.

TECHNICAL SKILLS

Cloud and platforms: Microsoft Azure, Azure VMs, Azure Migrate, AKS, App Service, Microsoft 365, Entra ID
Infrastructure as code and automation: Terraform, PowerShell, Python (small scripts), Go (Terratest tests)
CI/CD and containers: Azure DevOps Pipelines, YAML pipelines, Docker, Helm
Networking: Hub-and-spoke networks, VNets, VNet peering, Azure Firewall, private DNS, private endpoints, site-to-site VPN
Security: MFA, Conditional Access, mailbox auditing, backups
Systems: Windows, Linux, VMware, Proxmox

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics | 2025–Present

- Build Azure landing-zone infrastructure and Terraform modules.
- Designed hub-and-spoke networking across three Azure subscriptions, including Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering.
- Added Terratest module tests to the pipeline and a nightly infrastructure drift-detection job.
- Replaced manual deployments of 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test, and deployment to App Service or AKS.
- Increased deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS, including upgrades, node pools, and ingress.

Freelance IT Support | 2022–2023

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines.
- Enabled MFA, Conditional Access, mailbox auditing, and backups for small clients.

Systems Administrator | Maasbrug Gemeente IT Services | 2014–March 2020

- Administered around 250 Windows and Linux servers and supported staff across several municipal services.
- Planned and executed the migration of 60 servers from VMware to Azure IaaS using Azure Migrate; completed cut-over over six weekends with no unplanned downtime.
- Used PowerShell to automate repetitive work.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

Career break | March 2020–August 2022

- Took a career break to provide full-time care for a family member; provided unpaid IT help to church and family.

Career break and professional development | February 2024–February 2025

- Completed a three-month, part-time, online English-language cloud bootcamp in December 2024.
- Studied Terraform and built a Proxmox homelab.

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate
HashiCorp Certified: Terraform Associate (2025)
