PROFESSIONAL SUMMARY

Computing graduate and frontend developer with experience building React interfaces, improving web accessibility and writing unit tests. Full-stack project experience with TypeScript, Node.js, Express and PostgreSQL, including an accessible app using third-party weather and tide APIs.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS
Backend and databases: Node.js, Express, PostgreSQL
Accessibility and testing: WCAG 2.1, screen-reader testing, Jest, React Testing Library
Tools: Git/GitHub, Storybook, Figma, Vercel

EXPERIENCE

Frontend Developer, Freelance | *Oct 2025–Present*

- Built a yoga studio booking website with Next.js and Tailwind CSS, including marketing pages, a class timetable and booking requests sent by email.
- Used static generation and deployed the site on Vercel; managed content in Markdown files.
- Made updates to two WordPress sites.

Teaching Assistant, First-Year Web Development Lab | *Spring 2025*

- Helped approximately 30 students during one semester of web development labs.

Software Development Intern, Harbourline Media | *May 2024–Aug 2024*

- Worked on the web team supporting the company's React news site.
- Fixed accessibility issues across more than 20 components, including keyboard navigation, colour contrast and ARIA labels.
- Built a keyboard- and screen-reader-friendly image gallery for article pages and documented it in Storybook.
- Wrote unit tests using Jest and React Testing Library.

Barista, Corner Bean Cafe | *2021–2025*

- Worked part-time during studies.

PROJECTS

Tidewatch, Final-Year Project | *2024–2025*

- Built an accessible web app showing tides, water temperature and weather for sea swimmers around the Irish coast.
- Developed a React and TypeScript frontend and a Node.js/Express API that cached data from public weather and tide APIs; used PostgreSQL for user favourites.
- Tested with NVDA and VoiceOver screen readers; achieved a Lighthouse accessibility score of 100.
- Received 82% (First Class) and demonstrated the project at the college showcase.

Study Buddy, Group Project | *2023*

- Built the React frontend and login screens for a study-session matching app in a team of four. Other team members developed the API and database.
- Used JavaScript and Firebase Authentication.

Student Hackathon | *2024*

- Placed second in a team of three after building a transit delay notifier in 24 hours; developed the frontend.

EDUCATION

BSc (Hons) Computing – Software Development | Liffey Institute of Technology | 2021–2025
First Class Honours
Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms

LANGUAGES

English: Native | Mandarin: Conversational

VOLUNTEERING

Manage social media for a sea swimming club.
