SAMUEL ACHTERBERG-OSEI

Cloud Infrastructure / DevOps Engineer

PROFESSIONAL SUMMARY

Cloud infrastructure engineer with experience designing, building and operating Azure environments, infrastructure as code and deployment pipelines. Currently delivering Azure landing-zone networking, Terraform modules and CI/CD pipelines for internal applications, with responsibility for Azure landing-zone network design, Terraform module testing, drift detection and operational reliability. Previously supported approximately 250 Windows and Linux servers and led a 60-server VMware-to-Azure migration completed over six weekends without unplanned downtime. Practical experience with Azure networking, AKS operations, PowerShell automation and Microsoft 365 security baselines.

CORE SKILLS

Cloud and infrastructure: Microsoft Azure, Azure IaaS, Azure landing zones, Azure VMs, Azure Migrate, App Service, AKS operations

Infrastructure as code and automation: Terraform, Terraform modules, PowerShell, drift detection

Networking: Hub-and-spoke networks, VNets, VNet peering, Azure Firewall, private DNS zones, private endpoints, site-to-site VPN

DevOps and containers: Azure DevOps YAML pipelines, Docker, Helm, CI/CD, Terratest (Go)

Systems and security: Windows and Linux servers, VMware, Microsoft 365, Entra ID, MFA, Conditional Access, mailbox auditing, backups

Scripting: PowerShell; Python for reading and writing small scripts

PROFESSIONAL EXPERIENCE

Cloud Engineer (Contract) | Havenstad Logistics *2025–Present*

- Design and maintain Azure landing-zone networking using Terraform, including hub-and-spoke architecture, Azure Firewall, private DNS zones, private endpoints for storage and SQL, and VNet peering across three subscriptions.
- Add Terratest module tests to Azure DevOps pipelines and implement a nightly infrastructure drift-detection job.
- Replaced manual deployments for 15 internal .NET and Node applications with Azure DevOps YAML pipelines for build, test and deployment to App Service or AKS.
- Increased deployment frequency from roughly monthly to several times per week for most applications.
- Operate AKS clusters, including upgrades, node-pool management and ingress configuration; development teams own the application manifests.

Freelance IT Support *2022–2023*

- Created a repeatable PowerShell script and checklist for small-business Microsoft 365 security baselines.
- Enabled MFA, Conditional Access, mailbox auditing and backups for small clients.

Systems Administrator | Maasbrug Gemeente IT Services *2014–March 2020*

- Administered Windows and Linux systems and supported staff across several municipal services.
- Looked after approximately 250 Windows and Linux servers.

- Led the planning and execution of the 2019 migration of 60 servers from VMware to Azure IaaS using Azure Migrate, Azure VMs, VNets and site-to-site VPN; completed the cutover over six weekends with no unplanned downtime.
- Used PowerShell to automate repetitive work.

CAREER BREAKS AND PROFESSIONAL DEVELOPMENT

March 2020–August 2022 | Family caregiving

- Left municipal employment to provide full-time care for a family member.
- Kept Azure Administrator Associate knowledge current and provided unpaid IT help to church and family.

February 2024–February 2025 | Professional development

- Completed a part-time, online, English-language cloud bootcamp in December 2024.
- Studied Terraform and passed the Terraform Associate certification in 2025.
- Built a Proxmox homelab.

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Terraform Associate (2025)

ADDITIONAL INFORMATION

- Dutch driving licence
