PROFESSIONAL SUMMARY

Full-stack developer with professional web application experience since 2014, building user-facing products with React, TypeScript, Node.js and SQL databases. Experienced in implementing features end to end, including accessible interfaces, backend services, database integrations, automated testing and cloud deployment. Recent work includes a BankID identity-verification flow that increased onboarding conversion from 61% to 74%, and frontend performance improvements that reduced mobile LCP from 4.1 seconds to 1.9 seconds. Fluent in English and accustomed to working closely with designers and cross-functional teams.

CORE SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, Angular, AngularJS, Vue, React Native, HTML, CSS, SCSS, Storybook, Redux, React Query, jQuery

Backend: Node.js, NestJS, Express, PHP, Laravel, REST APIs, GraphQL, WebSockets

Databases: PostgreSQL, MySQL, MongoDB, Redis, Firebase, Prisma, TypeORM

Testing and delivery: Jest, Playwright, Cypress, React Testing Library, Supertest, GitHub Actions, GitLab CI, Docker

Cloud and tools: AWS (ECS, Lambda, S3, SQS, CloudWatch, RDS), Linux, Nginx, Varnish, Terraform (modifying existing files), Figma, Jira, Confluence, Sentry, Datadog, Unleash

Additional: Web accessibility, WCAG 2.1 AA, Agile/Scrum, BankID

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB, Gothenburg *2021–Present*

- Build and improve customer onboarding features in React and TypeScript, with Node.js and NestJS services and PostgreSQL data storage.
- Developed a new identity-verification flow integrating the BankID API, including QR-code handling, error states and retries. A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Implemented document uploads using S3 presigned URLs, ClamAV virus scanning in Lambda, and upload status handling with SQS and PostgreSQL.
- Helped migrate legacy Express services to NestJS and maintain a GraphQL backend-for-frontend with another developer.
- Improved frontend performance through code splitting, image optimization, removing Moment.js and replacing a large charting library; reduced mobile LCP from 4.1 seconds to 1.9 seconds. Also implemented server-side rendering for marketing pages with Next.js.
- Fixed accessibility issues in the onboarding flow against WCAG 2.1 AA and migrated the frontend from Create React App to Vite in 2023.
- Work with designers in Figma; contribute to on-call rotations and candidate interviews. The onboarding team received the 2023 internal Customer Impact Award.
- Technologies include TypeScript, React, NestJS, Express, PostgreSQL, Prisma, AWS, Docker, GitHub Actions, Jest, Playwright, Storybook, Sentry, Datadog and Unleash.

Developer | Sjöbris Digital Agency AB, Gothenburg *2018–2021*

- Built websites and web applications for approximately 25 clients across retail, transport, local government and sport.
- Developed client applications with Angular and React, and a campaign site with Vue; built backends using Node.js/Express and PHP/Laravel.
- Co-developed a React Native ticket-purchasing app for a ferry company, reaching approximately 50,000 downloads; served as project tech lead.
- Created and maintained custom WordPress themes and plugins and introduced GitLab CI for the agency.
- Worked with MySQL, MongoDB and Firebase.

Web Developer | Nordkust Media AB, Gothenburg *2014–2018*

- Developed newspaper websites and an article editor using PHP, jQuery and AngularJS.
- Implemented a paywall integration and configured Varnish caching.
- Performed some Ubuntu Linux server administration and worked with MySQL.

Freelance Web Developer / Student *2012–2014*

- Built websites for friends, family, a local bakery and two bands using PHP, jQuery and WordPress.

EDUCATION

Bachelor in Computer Science | West Coast University College (Högskola), Gothenburg

2011–2014 | Graduated 2014

Additional learning: Advanced React Patterns (2022); AWS Cloud Practitioner course (2020, exam not taken).

ADDITIONAL EXPERIENCE & LANGUAGES

- Coding bootcamp mentor, Gothenburg (evenings), 2019–2020.
- Speaker, local JavaScript meetup, 2022: “Migrating Express to NestJS without stopping the world”.
- Swedish: Native | English: Fluent (work language) | Arabic: Spoken at home; limited writing | German: Basic, school-level
- Driving licence: B
- Interests: Bass guitar, climbing, board games and home automation.
