Tobias Mwangi-Hartley

Data Scientist

tobias.mwangihartley@example.com | +44 7700 900110 | linkedin.com/in/tmh-example

PROFESSIONAL SUMMARY

Data scientist with over six years of experience in analytics and data science, including production SQL in BigQuery, dbt analytics models and scheduled forecasting workflows. Experienced in Python, statistical modelling and working with product, growth and operations teams to turn data into decisions.

TECHNICAL SKILLS

Data and engineering: Python, SQL, BigQuery, dbt, Git, Docker, pytest, Vertex AI Workbench, Looker, Jupyter
Python libraries: pandas, scikit-learn, LightGBM, XGBoost, statsmodels, Streamlit
Analytics: A/B testing, causal inference, time-series forecasting, Bayesian statistics
R: tidyverse, brms, R Markdown

PROFESSIONAL EXPERIENCE

Data Scientist | Thistlebox, meal-kit subscriptions | Feb 2022–Present

- Write production SQL in BigQuery and maintain dbt models for the analytics layer.
- Built a weekly six-week-ahead demand forecasting model by recipe and region using LightGBM. The scheduled Vertex AI Workbench notebook writes forecasts to BigQuery for operations to view in Looker. Reduced WAPE from 23% to 14% and estimated food waste by 9%.
- Introduced pytest unit tests for forecasting feature code in 2025, reaching approximately 60% coverage.
- Built an XGBoost churn model scored weekly in BigQuery to target retention offers. A 10% holdout showed a 2.1 percentage-point reduction in churn in the treated group.
- Designed and analysed approximately 40 A/B tests per year for growth and product teams. Built a Streamlit sequential testing calculator used by approximately 25 colleagues and wrote its Dockerfile; the data platform team deployed and hosts the app on Cloud Run.
- Presented results to leadership monthly and delivered internal “Stats for PMs” training three times.

Junior Data Analyst | Firth Energy Retail | Sep 2020–Jan 2022

- Analysed customer segments and tariffs using R and SQL.
- Automated monthly regulator reports with R Markdown, saving the team approximately two days per month.

EDUCATION

MSc Statistics, Distinction | University of the Lothians | 2020
Dissertation: Bayesian hierarchical models for small-area energy demand

BSc Mathematics | University of the Lothians | 2019

LANGUAGES

English: native | Swahili: conversational
