Tobias Mwangi-Hartley

Data Scientist

tobias.mwangihartley@example.com | +44 7700 900110 | linkedin.com/in/tmh-example

PROFESSIONAL SUMMARY

Data scientist with six years of experience in analytics and data science, including more than four years as a data scientist. Experience building forecasting and customer propensity models used by business teams, with strengths in Python, statistics, experimentation and production SQL. Now moving towards machine learning engineering.

TECHNICAL SKILLS

Programming and data: Python (pandas, scikit-learn, LightGBM, XGBoost, statsmodels), R (tidyverse, brms), SQL (BigQuery), dbt
Tools: Git, Jupyter, Looker, R Markdown
Methods: Machine learning, feature engineering, time-series forecasting, A/B testing, causal inference, Bayesian statistics

PROFESSIONAL EXPERIENCE

Data Scientist | Thistlebox, meal-kit subscriptions | Feb 2022–present

- Built a weekly demand forecasting model for each recipe using LightGBM and calendar features. Used by operations to order ingredients, the model reduced forecast error (WAPE) from 23% to 14% and estimated food waste by 9%.
- Built an XGBoost churn propensity model used to target retention offers; validated uplift with a holdout.
- Write production SQL in BigQuery and maintain dbt models for the analytics layer.
- Design and analyse approximately 40 A/B tests per year for growth and product teams; built the team's sequential testing calculator.
- Present results to leadership monthly.

Junior Data Analyst | Firth Energy Retail | Sep 2020–Jan 2022

- Conducted customer segmentation and tariff analysis using R and SQL.
- Automated monthly regulator reports with R Markdown.

EDUCATION

MSc Statistics, Distinction | University of the Lothians | 2020
Dissertation: Bayesian hierarchical models for small-area energy demand

BSc Mathematics | University of the Lothians | 2019

LANGUAGES

English (native), Swahili (conversational)
