Dear Hiring Manager,

I am applying for the Butcher / Meat Counter Assistant position at FreshCart's Zagreb-Jarun store. I have completed butcher training and have worked in butchery and meat-counter roles since 2015, with hands-on experience preparing fresh meat and serving customers.

In my current role, I break down beef and pork, bone, trim and portion meat for the counter, and advise customers on cuts and cooking times. I also rotate cold-room stock using FIFO and record HACCP temperature checks for the cold room and display counter twice daily. My earlier experience at the Dolac market stall included weighing and pricing orders, operating the till, and cleaning and sanitising equipment and the counter.

FreshCart's focus on fresh local food, knowledgeable service and high hygiene standards appeals to me. I would bring practical butchery experience, reliability and a friendly approach to helping customers. I would welcome the opportunity to discuss my application.

Kind regards, Tomislav Mesarić
