Dear Hiring Manager,

I am applying for the Butcher / Meat Counter Assistant position at FreshCart's Zagreb-Jarun store. I completed butcher training at the Food Trades School in 2015 and have four years of experience serving customers at a meat counter, weighing and pricing orders, and operating a till.

Alongside my counter experience, I have prepared lamb and suckling pigs for weddings and family events, developed fresh sausage products, and helped run a dry-ageing trial, recording temperature and weight-loss data. In my current meat-counter work, I rotate chilled stock each morning using FIFO and clean slicers and mincers at the end of the day. I also have basic HACCP knowledge and created a closing and cleaning checklist that remains in use at the stall.

FreshCart's focus on fresh food, honest product advice and careful hygiene appeals to me. I would bring practical butchery experience, reliable customer service and care in maintaining clean, well-organised stock to your team. I am also preparing for the Master Butcher Exam, planned for spring 2027.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience could contribute to the Zagreb-Jarun team.

Kind regards,
Tomislav Mesarić
