OSKAR

Full-Stack Engineer | TypeScript / React

PROFESSIONAL SUMMARY

Full-stack developer with 12 years of professional experience building web and mobile applications. Strongest in frontend development with React and TypeScript, with professional experience delivering backend services using Node.js, NestJS and PostgreSQL. Recent work includes fintech onboarding identity verification, secure document upload and an incremental backend migration. Experienced as a project tech lead and acting team lead, with hands-on delivery of identity verification and secure ID-document upload flows in a fintech onboarding product.

CORE SKILLS

Frontend: React, TypeScript, Angular, React Native

Backend: Node.js, NestJS, Express, Laravel, Apollo Server

Databases and ORM: PostgreSQL, TypeORM, Prisma

Cloud and messaging: AWS ECS, S3, Lambda, SQS; Firebase Cloud Messaging

Other: WordPress, GraphQL (maintained an Apollo Server BFF), Python (basic), YAML

LANGUAGES

English

PROFESSIONAL EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB *2021–Present*

- Develop onboarding features using React, TypeScript, NestJS and PostgreSQL, with AWS services.
- Built a BankID identity verification step for onboarding; see Selected Projects for details.
- Delivered a secure ID-document upload flow; see Selected Projects for details.
- Contributed to an incremental migration of the onboarding backend from Express to NestJS, moving route by route behind the same API gateway.
- Maintained an Apollo Server BFF.
- Acted as team lead for four months in 2024 during the lead's parental leave, including 1:1s and sprint planning.

Developer | Sjöbris Digital Agency AB *2018–2021*

- Delivered client web and mobile projects using Angular, React, React Native, Laravel and WordPress.
- Served as project tech lead and built most of a React Native ferry-ticket app in a two-developer team. The app supports ticket purchase and offline ticket display and has approximately 50,000 downloads.

Developer | Nordkust Media *2014–2018*

- Worked on newspaper websites.

SELECTED PROJECTS

BankID Identity Verification Flow *2022*

- Built a new onboarding identity-verification step using Swedish BankID, with QR-code and same-device flows through a provider SDK.
- A/B tested with 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Technologies: React, TypeScript, NestJS, PostgreSQL, AWS ECS.

Secure Document Upload *2023*

- Implemented customer ID-document uploads (up to 20 MB) using S3 presigned URLs, ClamAV virus scanning in Lambda, and scan-status handling through SQS into PostgreSQL.
- Technologies: AWS S3, Lambda, SQS, NestJS, PostgreSQL.

Express to NestJS Migration *2021–2022*

- Contributed to an incremental onboarding-backend migration, moving routes from Express to NestJS behind the same API gateway.
- Gave a meetup talk about the migration in 2022.
- Technologies: Node.js, Express, NestJS, TypeORM, Prisma.

Ferry Ticket Mobile App *2019–2020*

- Tech lead in a two-developer team; built most of a React Native app for buying and showing ferry tickets offline. The app has approximately 50,000 downloads.
- Technologies: React Native, TypeScript, Node.js, Firebase Cloud Messaging.

Home Assistant Integrations | Personal project *2022–Present*

- Built two small custom home-automation integrations, published on GitHub with approximately 40 stars combined.
- Technologies: Python (basic), YAML.

LEADERSHIP EXPERIENCE

Acting Team Lead *2024*

- Covered the team lead role for four months during parental leave, conducting 1:1s and sprint planning.
