PROFESSIONAL SUMMARY

Backend engineer with 7 years of experience building and running Java and Spring Boot services for insurance and travel products. Experienced in REST APIs, PostgreSQL and Oracle, Kafka event-driven integration, automated testing, performance tuning, and deploying services to Kubernetes on AWS EKS. Brings production on-call experience and is interested in applying this backend experience in a Python-focused role.

TECHNICAL SKILLS

Backend: Java (8–17), Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Kotlin (basic)
APIs and messaging: REST, OpenAPI, Kafka, RabbitMQ
Databases and performance: PostgreSQL, Oracle, Redis, JPA query tuning
Cloud and delivery: Docker, Kubernetes, Helm, Jenkins, AWS (EKS, S3, SQS; service user), Terraform (can read; has not authored modules)
Testing and tools: JUnit 5, Testcontainers, Spring Cloud Contract, Git, Linux
Python: Scripting for data fixes and small Jenkins helpers; no production Python services
Go: Learning project, a non-production CLI for diffing OpenAPI specifications (approximately 600 lines)

PROFESSIONAL EXPERIENCE

Backend Engineer | Tejo Insurance Tech, Lisbon | Jan 2022–Present

- Develop and maintain 7 Java 17 / Spring Boot microservices for policy quoting and claims intake.
- Designed and versioned an OpenAPI 3 REST API for partner quoting; 12 broker partners use the API for approximately 400,000 quote requests per month. Added partner rate limiting and Spring Cloud Contract tests.
- Implemented a transactional outbox and idempotent Kafka consumers to prevent duplicate claim records; duplicates fell from approximately 40 per week to zero over the following quarter.
- Reduced quote endpoint p99 latency from 1.8 seconds to 450 milliseconds by adding Redis caching and resolving JPA N+1 queries.
- Deploy services to Kubernetes on AWS EKS using Helm charts and Jenkins pipelines; take part in the on-call rota one week per month.
- Investigated a major Kafka lag incident in March 2024 and wrote an incident report that was praised.
- Built an internal Kotlin and Spring Boot service that renders policy PDFs from templates; wrote the team's Kotlin coding guidelines.
- Run the backend guild meeting every two weeks, since 2024.

Software Developer | Viajar Online S.A., Porto | Sep 2019–Dec 2021

- Built booking and payment features in a Java 11 / Spring MVC monolith backed by Oracle.
- Wrote integration tests with Testcontainers, raising payments-module test coverage from 35% to 70% and supporting safer refactoring.
- Extracted email and SMS notifications from the booking monolith into a Spring Boot service using RabbitMQ and Thymeleaf.

Junior Developer (internship then full-time) | CodeFarol Lda, Porto | Jul 2018–Aug 2019

- Maintained PHP and later Java applications for small business clients.

EDUCATION

BSc Informatics Engineering | Atlantic Polytechnic Institute | 2018

CERTIFICATION

Oracle Certified Professional Java SE 11 Developer | 2020

LANGUAGES

English (fluent; used as the working language at Tejo Insurance Tech), Portuguese (fluent), Spanish (conversational)
