Oskar

Full-Stack Developer | React, TypeScript, Node.js

PROFESSIONAL SUMMARY

Full-stack developer with 12 years of professional experience since 2014, strongest in frontend development. Builds customer-facing web and mobile experiences with React and TypeScript, alongside Node.js services and PostgreSQL-backed features. Recent work includes BankID identity verification, secure document upload, and an incremental Express-to-NestJS migration. Has led delivery of a React Native app with approximately 50,000 downloads and served as acting team lead for four months in 2024.

CORE SKILLS

Frontend: React, TypeScript, React Native, Angular
Backend and databases: Node.js, NestJS, Express, PostgreSQL, GraphQL, Apollo Server, Prisma, TypeORM
Cloud and integrations: AWS ECS, S3, Lambda, SQS; Firebase Cloud Messaging; provider SDK integrations
Additional: Laravel, WordPress, Python (basic), YAML, Terraform (minor edits)
Team leadership: 1:1s and sprint planning as acting team lead

PROFESSIONAL EXPERIENCE

Fullstack Developer | Älvgrind Fintech AB | 2021–Present

- Develop onboarding features using React, TypeScript, NestJS, PostgreSQL, and AWS.
- Work across frontend, backend, and database components for identity verification and secure document upload features.
- Contributed to the incremental migration of the onboarding backend from Express to NestJS, route by route behind the same API gateway.
- Served as acting team lead for four months in 2024 during the team lead's parental leave, holding 1:1s and planning sprints.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Delivered client web and mobile projects using Angular, React, React Native, Laravel, and WordPress.
- Tech lead and primary app developer on a two-developer ferry ticket app project; the other developer built the payment backend.

SELECTED PROJECTS

BankID Identity Verification Flow | Älvgrind Fintech | 2022

- Implemented an onboarding identity step using Swedish BankID QR-code and same-device flows through a provider SDK.
- A/B-tested on 10% of traffic before full rollout; onboarding conversion increased from 61% to 74%.
- Technologies: React, TypeScript, NestJS, PostgreSQL, AWS ECS.

Secure Document Upload | Älvgrind Fintech | 2023

- Built an ID document upload flow for files up to 20 MB using S3 presigned URLs, ClamAV virus scanning in Lambda, and scan-status processing through SQS into PostgreSQL.
- Technologies: AWS S3, Lambda, SQS, NestJS, PostgreSQL.

Express-to-NestJS Migration | Älvgrind Fintech | 2021–2022

- Migrated the onboarding backend incrementally from Express to NestJS, route by route, behind the same API gateway.
- Gave a meetup talk about the migration in 2022.
- Technologies: Node.js, Express, NestJS, TypeORM, Prisma.

Ferry Ticket Mobile App | Sjöbris Digital for a ferry operator | 2019–2020

- Tech lead and primary app developer in a two-developer team for a React Native app for buying and showing ferry tickets offline.
- The app has approximately 50,000 downloads; the other developer built the payment backend.
- Technologies: React Native, TypeScript, Node.js, Firebase Cloud Messaging.

Home Assistant Integrations | Personal project | 2022–Present

- Built two small custom home automation integrations, published on GitHub with approximately 40 stars combined.
- Technologies: Python (basic), YAML.
