Oskar

Senior Full-Stack Engineer | Frontend-focused | React, TypeScript, Node.js

PROFESSIONAL SUMMARY

Full-stack engineer with 12 years of professional experience since 2014, strongest in frontend development with React and TypeScript. Experienced building web and mobile applications and delivering onboarding features with NestJS, PostgreSQL, and AWS. Led development of a React Native ferry-ticket app with approximately 50,000 downloads; also served as acting team lead for four months in 2024.

EXPERIENCE

Full-Stack Developer | Älvgrind Fintech AB | 2021–Present

- Build onboarding features using React, TypeScript, NestJS, PostgreSQL, and AWS.
- Served as acting team lead for four months in 2024, covering 1:1s and sprint planning while the team lead was on parental leave.

Developer | Sjöbris Digital Agency AB | 2018–2021

- Worked on client web and mobile projects using Angular, React, React Native, Laravel, and WordPress.

Developer | Nordkust Media | 2014–2018

- Worked on newspaper websites.

SELECTED PROJECTS

BankID Identity Verification Flow | Älvgrind Fintech | 2022

- Built an onboarding identity step using Swedish BankID through a provider SDK, supporting QR-code and same-device flows.
- A/B tested on 10% of traffic before full rollout; onboarding conversion moved from 61% to 74%.
- Technologies: React, TypeScript, NestJS, PostgreSQL, AWS ECS.

Secure Document Upload | Älvgrind Fintech | 2023

- Built a customer ID-document upload flow for files up to 20 MB, using S3 presigned URLs, ClamAV scanning in Lambda, and SQS scan-status updates to PostgreSQL.
- Technologies: AWS S3, Lambda, SQS, NestJS, PostgreSQL.

Express to NestJS Migration | Älvgrind Fintech | 2021–2022

- Migrated the onboarding backend incrementally from Express to NestJS, route by route, behind the same API gateway.
- Gave a meetup talk about the migration in 2022.
- Technologies: Node.js, Express, NestJS, TypeORM, Prisma.

Ferry Ticket Mobile App | Sjöbris Digital for a ferry operator | 2019–2020

- Tech lead in a two-developer team; built most of a React Native app for buying and showing ferry tickets offline.
- The app has approximately 50,000 downloads.
- Technologies: React Native, TypeScript, Node.js, Firebase Cloud Messaging.

TECHNICAL SKILLS

Frontend: React, TypeScript, React Native, Angular, WordPress.
Backend and databases: Node.js, NestJS, Express, Laravel, PostgreSQL, TypeORM, Prisma.
Cloud and messaging: AWS ECS, S3, Lambda, SQS, Firebase Cloud Messaging.

Additional: GraphQL (Apollo Server; maintenance of one BFF), Python (basic; personal Home Assistant integrations), YAML.
