RAFAEL MORETTI-KLEIN

Backend Engineering | Python, Go and Distributed Systems

rafael.morettiklein@example.com | +49 555 0505 505 | linkedin.com/in/rmk-example

PROFESSIONAL SUMMARY

Software engineer and engineering leader with 21 years of experience building large-scale backend systems in Python, Go and C++. Experience spans fleet telematics, GPS data ingestion, high-throughput APIs and cloud services. Defined architecture for platforms serving 50M+ users and improved playback API availability from 99.5% to 99.95%. Continue to write code every week, primarily internal tooling in recent years.

TECHNICAL SKILLS

Languages and frameworks: Python, FastAPI, Tornado, Flask, Django, asyncio; Go; C++ (earlier experience).

Databases and messaging: PostgreSQL/PostGIS, Cassandra, Redis, Kafka, RabbitMQ.

Cloud and infrastructure: AWS (EC2, S3), GCP (GKE, Pub/Sub, BigQuery), Kubernetes, Terraform.

Observability: Prometheus, Grafana, OpenTelemetry.

Engineering: Distributed systems design, backend APIs, automated test tooling, architecture reviews, RFCs, gRPC, Protobuf.

PROFESSIONAL EXPERIENCE

Director of Engineering, Platform | Streamhaus GmbH
2019 - August 2026

- Drove migration from a Python 2 monolith to approximately 60 Python/Go services on GKE; playback API availability improved from 99.5% to 99.95%.
- Introduced an RFC process, architecture review board and on-call guidelines adopted company-wide.
- Led five teams comprising 45 engineers and five engineering managers, responsible for identity, playback API, billing integration and developer platform.
- Reduced cloud spend by 31% (EUR 4.2M/year) through rightsizing, committed use discounts and an internal cost dashboard.

Principal Engineer | Streamhaus GmbH
2015 - 2019

- Technical lead for the playback API, using Python, Tornado, a later FastAPI-like internal framework, Cassandra and Redis.
- Designed the entitlement service handling 120k requests/second at peak, using Go and Cassandra.
- Co-authored the company's service template and Python style guide.

Senior Software Engineer | Nordfels Telematik AG
2010 - 2015

- Developed fleet telematics backend systems ingesting GPS data from 300k vehicles, using C++, Python, PostgreSQL/PostGIS and RabbitMQ.
- Led six developers on the route-history product.

Software Engineer | Dataquelle Systems GmbH
2005 - 2010

- Developed industrial data acquisition software in C++ and Python on Linux and embedded x86.
- Built a Python test harness used by QA for eight years.

EDUCATION

Dipl.-Inf. (equivalent MSc), Computer Science
Rhine Valley University, 2005

LANGUAGES

German (native), Italian (native), English (fluent)
