PROFESSIONAL SUMMARY

First Class Honours Computing graduate with professional frontend experience through freelance work and a React development internship. Built accessible web interfaces, reusable components and unit tests, with full-stack project experience using TypeScript, Node.js, Express and PostgreSQL. Relevant work includes a yoga studio booking website and a screen-reader-tested tide and weather application.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, Next.js, HTML5, CSS3, Tailwind CSS
Backend and data: Node.js, Express, PostgreSQL, third-party API integration through projects
Accessibility: WCAG 2.1, keyboard navigation, ARIA labels, colour contrast, NVDA and VoiceOver testing
Testing and tools: Jest, React Testing Library, Storybook, Git/GitHub, Figma, Vercel
Authentication: Firebase Authentication through a group project

EXPERIENCE

Frontend Developer (part-time, freelance) | Self-employed
Oct 2025 - present

- Built a yoga studio booking website using Next.js, React and Tailwind CSS, deployed on Vercel.
- Implemented statically generated marketing pages, a class timetable and booking requests sent by email, with content edited in Markdown files.
- Made small updates to two WordPress websites.

Software Development Intern | Harbourline Media
May 2024 - Aug 2024

- Worked in the web team on the company's React news site.
- Resolved accessibility audit findings across 20+ components, addressing keyboard navigation, colour contrast and ARIA labels.
- Built a reusable, keyboard- and screen-reader-friendly image gallery for article pages and documented it with Storybook stories.
- Wrote unit tests with Jest and React Testing Library.

Teaching Assistant | First-year Web Development Lab
Spring 2025 | One semester

- Helped approximately 30 first-year students in web development labs.

Barista | Corner Bean Cafe
2021 - 2025 | Part-time during studies

PROJECTS

Tidewatch | Final Year Project | 2024 - 2025
React, TypeScript, Node.js, Express, PostgreSQL, Chart.js, Jest

- Built an accessible web app showing tides, water temperature and weather for sea swimmers around the Irish coast.
- Developed a Node.js/Express API that cached data from public weather and tide APIs, with PostgreSQL storing user favourites.
- Tested with NVDA and VoiceOver; achieved a Lighthouse accessibility score of 100.
- Received a project grade of 82% and demonstrated the app at the college project showcase.

Study Buddy | Group Project | 2023
React, JavaScript, Firebase Authentication

- Built the React frontend and login screens for a study-session matching app in a team of four; teammates developed the API and database.

EDUCATION

BSc (Hons) Computing - Software Development
Liffey Institute of Technology | 2021 - 2025
First Class Honours
Relevant modules: Web Development, Databases, Human-Computer Interaction, Software Testing, Data Structures & Algorithms

ADDITIONAL EXPERIENCE AND ACHIEVEMENTS

- Second place at a student hackathon in 2024: developed the frontend for a transit delay notifier in a team of three within 24 hours.
- Volunteer: run social media for a sea swimming club.
